COURT6

Group Class Program · Prince Edward Island

Cycle 1 · 9-week block · Weekdays only version

Strength + Aerobic Base

9 weeks · Monday Oct 19 → Sunday Dec 20, 2026

CrossFit-style classes + HYROX-style training
Weekdays-only version: 5 classes a week, Monday to Friday

Prepared for Jake Walters · v2 after your review (weekdays only version) · Oct 16, 2026

Test	Base	Build	Primer/Deload	Retest	Flex
Wk 1 Oct 19–25	Wk 2–4 Oct 26–Nov 15	Wk 5–6 Nov 16–29	Wk 7 Nov 30–Dec 6	Wk 8 Dec 7–13	Wk 9 Dec 14–20

Next: a new block from Dec 21 or after the holidays (Jan 4); a 9-week HYROX block for HYROX Ottawa (Apr 21–25, 2027) starts around Feb 15.

How to use this program

1. Coaches: read **Coach notes** and **Strength progression** once before Week 1.
2. Each week starts on a new page: phase, focus, coach intent, then a week-at-a-glance table.
3. Each day is one block: Purpose → Time budget → Warm-up → Strength/Skill → Workout → Levels (Rx / Intermediate / Foundations) → Score (cap, target, feel, pace) → Accessory → Cool-down.
4. Loads are written men/women in lb, with kg in brackets: 53/35 lb (24/16 kg).
5. Print **Appendix A** for every member in Week 1; retest in Week 8 (benchmarks in Week 9).

Glossary (plain language)

Words you will see on the whiteboard and in this program.

Term	What it means
RPE (effort out of 10)	Rate of Perceived Exertion: how hard it feels, 1–10. 5 = steady, could chat; 7 = hard but controlled; 8 = hard, 2 reps left; 10 = all-out. The RPE guide is in Coach notes.
RIR (reps in reserve)	How many more good reps you could have done when you stop. RIR 2 = you stopped with 2 left. Accessories are RIR 2–3.
Threshold	The fastest pace you can hold for about 20–40 min. About 7/10 effort: breathing hard but controlled, a few words possible. Running: your 1 km test pace + 0:40–0:50 per km.
Zone 2 / easy	Easy aerobic pace: about 4–5/10. You can talk in full sentences. Builds the engine without tiring you out.
Strides	Relaxed 15–20 s or 100 m runs that build to fast but not sprinting, with full recovery. Used to warm up and practise good form.
Time trial (TT)	A test: cover the distance as fast as you can hold for the whole distance (e.g. 1 km run).
AMRAP	As Many Rounds (or Reps) As Possible in the time given. Score = rounds + reps.
EMOM / Every X:00	Every Minute On the Minute: start the work at the top of each minute and rest for the rest of that minute. 'Every 2:00 × 6' = same idea, every 2 minutes, 6 times.
For time / Cap	Finish the work as fast as you can. The cap is the time limit; if you hit it, record the reps done.
Work / rest (e.g. 4:00 / 1:00)	Work for the first number, then rest for the second, and repeat.
Superset (A1, A2, A3)	Do the exercises back to back, then rest and repeat for the rounds given.
Rx / Int / Fdn	The three levels in every workout: Rx = as written; Int = Intermediate; Fdn = Foundations (new, returning or masters members). All three get the same training effect.
3RM / 5RM	The heaviest weight you can lift for 3 (or 5) good reps. We test these in Week 1 and retest in Week 8.
Estimated max (e1RM) and %	Your estimated one-rep max, worked out from the test: 3RM × 1.06 (press: 5RM × 1.13). '5 × 5 @ 75%' = 5 sets of 5 reps at 75% of that number. Lookup tables are in Strength progression.
Ramp sets	Lighter warm-up sets that build up to the working weight.
Compromised running	Running straight after a HYROX station, on tired legs, the way it happens in the race. Starts in Week 5.
HYROX / stations / Roxzone	HYROX is a fitness race: 8 × 1 km runs, each followed by a workout station (sled push, wall balls, etc.). The Roxzone is the transition area between running and stations.
Court6 Mini-Rox	Our short HYROX-style test: 4 runs, each followed by a station. Done in Week 9.
Deload	A lighter week (about 40–50% less volume) so the body can recover and adapt. Week 7.
Primer	Short, crisp work during the deload (a few heavy reps, short sprints) to stay sharp for the retests.
Feel: Gas / Cardio / Muscle	What should limit you: Gas = breathing; Cardio = steady heart-rate work; Muscle = the working muscles burn first.
Pace: Sustain / Reach	Sustain = an even pace you could keep 5 more minutes. Reach = harder and shorter, but never sloppy.
Toes-to-bar (T2B), kip, hollow / arch	Hang from the bar and bring the toes to it. The kip is the controlled swing that helps; hollow and arch are the two body shapes of that swing.
Cal (row / bike)	Calories shown on the machine's monitor. '12/9 cal' = 12 for men, 9 for women.
Split (rowing)	Time per 500 m shown on the rower. Lower = faster.
On-ramp / masters	On-ramp = the intro course new members take before joining classes. Masters = members aged 40+.
Loads like 53/35 lb (24/16 kg)	Men / women. Pick the level, not the label: anyone can use either load.

Cycle at a glance

Cycle 1 (9-week block): Strength + Aerobic Base · Mon Oct 19 → Sun Dec 20, 2026 · 9 weeks · **Weekdays-only version:** Mon–Fri classes, no weekend sessions. HYROX stations and compromised running live in Wednesday (and some Friday) conditioning; the Mini-Rox is on Friday of Week 9. Shape: test → 3 Base → 2 Build → primer/deload → retest → flex week. The block ends before the holidays.

Wk	Dates	Phase	Focus	Skill block	Tests / key sessions	Class run*
1	Oct 19–25	Test	Set strength numbers and run paces; normal training around the tests	T2B: hollow/arch foundations	3RM squat & deadlift, 5RM press, 1 km run	2.2 km
2	Oct 26–Nov 1	Base	Volume at easy-moderate effort	T2B baseline (light test) + strict pulling	T2B baseline (Tue)	2.4 km
3	Nov 2–8	Base	A bit more work, same effort	T2B: kip swing	—	2.4 km
4	Nov 9–15	Base	Heavier fives; Cindy	T2B: kipping knee raise	Cindy · Remembrance Day Wed Nov 11	2.4 km
5	Nov 16–22	Build	Heavier triples; compromised running starts	T2B: singles to small sets	First compromised-running Wednesday	2.6 km
6	Nov 23–29	Build	Triples to 85%: hardest week of the block	T2B: sets under fatigue	Station doubles off short runs (Wed)	2.8 km
7	Nov 30–Dec 6	Primer/ Deload	Volume about −45%, keep some intensity	T2B: light practice	—	1.6 km
8	Dec 7–13	Retest	Retest strength and the 1 km run	T2B: maintenance	3RM squat & deadlift, 5RM press, 1 km run	2.8 km
9	Dec 14–20	Flex	Benchmarks, skill retest, mini race sim, community	T2B retest	T2B retest · Helen (Wed) · Court6 Mini-Rox (Fri)	2.8 km

**Approximate running in class at Rx distances (Tue + Wed/Fri runs + test/benchmark runs). It never goes up more than 10% from one week to the next (Week 8 returns to the Week 6 level after the deload).*

Weekly split

Day	Session	Effort	Length
Mon	Heavy strength: back squat + short intervals (bike or row, no running)	HARD	60 min
Tue	Gymnastics skill (toes-to-bar) + aerobic intervals (most running is here)	MODERATE	60 min
Wed	Deadlift strength + threshold conditioning (20–26 min at about 7/10, 'sustain'); HYROX stations in Weeks 2–4, compromised running in Weeks 5–6	MODERATE	60 min
Thu	Accessory strength (supersets + core), then easy row/bike intervals with set work and rest	EASY	60 min
Fri	Clean technique + strict press + benchmark-style workout ('reach')	HARD	60 min

No partner or team workouts Monday to Friday: every weekday piece is done on your own, at your own level.

Testing weeks

When	What
Week 1 (Oct 19–25) and Week 8 (Dec 7–13)	Strength and one run test only: 3RM back squat (Mon) · 1 km run time trial, or 1,000 m row indoors (Tue) · 3RM deadlift (Wed) · 5RM strict press (Fri). Normal training around them.
Block skill: toes-to-bar	Light baseline Tue Week 2 (Oct 27) → retest Tue Week 9 (Dec 15)
Benchmarks	Cindy mid-block (Fri Nov 13, Wk 4) · Helen (Wed Dec 16, Wk 9) · Court6 Mini-Rox, weekday version (Fri Dec 18, Wk 9)

Coach notes

Class template (60 min)

Minutes	Block	What happens
0–3	Whiteboard brief	Say the day's purpose, the feel (gas / cardio / muscle), the pace (sustain / reach) and the target score. Members pick a level now.
3–15	Warm-up (RAMP)	General 5 min (raise heart rate), then specific 6–7 min using today's movements and ramp-up sets. Warm-ups repeat for each 3-week block on purpose, so members learn them.
15–35	Strength / skill	One main lift or skill, 20 min or less. Percentages + RPE cap.
35–52	Workout	12–25 min. Every workout has 3 levels, a cap, a target, a feel and a pace.
52–60	Accessory + cool-down	Short superset (RIR 2–3), then easy cardio, stretching, log scores.

Thursday: warm-up 7, accessory strength 21, easy intervals 21, cool-down 8 (run it in two waves if machines are short). Each day shows its own minute-by-minute budget.

Intensity rules

- **Two truly hard days a week:** Monday and Friday (plus test days; test weeks keep the rest of the week moderate). Wednesday is 'sustain', not 'empty the tank'. Thursday is the easy day: real sets and intervals with a clock, but nobody breathes hard.
- **Sustain** = an even pace you could hold 5 more minutes. Breathing every 4 steps or more when running. **Reach** = harder and shorter, but never faster than you can move well.
- **Feel:** Gas = lungs/breathing limit; Cardio = steady heart-rate work; Muscle = local muscle fatigue limits you.
- **Running:** class volume goes up no more than 10% a week. Heavy-leg days (Mon) use bike or row, not runs. After a deload, return to pre-deload volume, not higher.
- **Winter (PEI) rule:** if the route is icy or dark, use the substitutions on every running day: 400 m run = 500 m row = 20/16 cal air bike. Log which one you did.
- **No partner workouts Monday to Friday.** Weekday pieces are individual; with few machines or 1–2 sleds, stagger start stations or run the class in waves.
- **Strength comes first, conditioning second** in every class. Never move the workout in front of the main lift.

Scaling rules

- **Rx / Intermediate / Foundations keep the same stimulus.** Pick the level that hits the target time or score, not the one with the highest load.
- **Scale by time:** if one set or station takes more than about 1:00–1:30 (more than the target), scale the next round.
- **Gymnastics:** strict before kipping, bar before rings, hollow and arch shapes first. Keep sets unbroken by scaling early.
- **New members** (first 4 weeks after on-ramp): Foundations, RPE 7 on lifts, no max tests (use RPE 8 sets instead).
- **Masters (40+, or 55+ especially):** RPE 8 cap on intervals, 70–85% on strength, skip the last set of accessories, keep the Thursday session easy.
- **Injury:** keep the pattern, move the pain-free range (box squat, KB deadlift, landmine press, bike for run). Coach logs the modification on the member's card.

RPE guide

RPE	Lifting	Conditioning (talk test)
10	Max: no reps left	All-out sprint; can't speak
9	1 rep left (RIR 1)	Very hard; 1–2 words
8	2 reps left (RIR 2) · **the cap on all strength sets**	Hard 'reach' intervals; short phrases
7	3 reps left (RIR 3)	Threshold / 'comfortably hard': breathing hard but controlled; a few words at a time
5–6	Warm-up and technique sets	Steady aerobic; full sentences
3–4	—	Easy Zone 2 / recovery; could chat all day

How to use the percentages

- **Week 1 tests a 3RM (squat, deadlift) and a 5RM (press)**, not a true 1RM. That's safer for a general class. Week 8 repeats the same tests.
- **Estimated 1RM (e1RM) = 3RM × 1.06** (or **5RM × 1.13**). Every percentage in this cycle is a % of e1RM. Example: 3RM 200 lb → e1RM 212 lb → 75% = 159 → load 160 lb (72.5 kg).
- **Round to the nearest 5 lb / 2.5 kg.** Use the lookup tables on the next pages.
- **RPE 8 cap:** if a set feels harder than RPE 8 (fewer than 2 reps left) or form breaks, drop 5–10% for the remaining sets. If every set felt RPE 6 or easier, add 2.5–5% next week (max +5%).
- **No Week 1 number?** Start at a weight that feels RPE 7 for the prescribed reps and build from there.

Running paces from the 1 km test

Why one 1 km test: 1 km is the HYROX run distance, it fits easily in a class, and every pace comes from one number. Your 1 km time is your pace per km (a 4:30 test = 4:30 per km). The old 400 m test and the fatigue factor are gone. Retest in Week 8.

Pace	How to find it (from your 1 km time per km)	Example (4:30 test)	Used on
Easy / Zone 2	1 km pace + 1:30–2:30 per km. You can talk in full sentences.	6:00–7:00 /km	Warm-ups, easy rounds
Threshold / HYROX race pace	1 km pace + 0:40–0:50 per km. About 7/10: breathing hard but controlled.	5:10–5:20 /km	Tue intervals, compromised runs
Fast repeats	1 km pace, for 200–400 m repeats only	about 1:50 per 400 m	Primer sprints (Wk 7)
Rowing	Test 1,000 m row split per 500 m; easy = split + 0:15–0:25; threshold = split + 0:06–0:10	test 2:00 → easy 2:15–2:25	Thu intervals, indoor days

Assumptions (Jake to confirm)

- **Class size** 8–16 adults; 1 coach, 2 on test days and the Week 9 Mini-Rox.
- **Members:** mixed general population who have done an on-ramp; roughly a third are masters (40+); few have raced HYROX.
- **Equipment:** barbells and racks for each member, about 4 rowers and 4 air bikes (**no SkiErg at Court6**: every session uses rower, air bike or running instead), 1–2 sleds (or the substitutions in Appendix C), wall balls, KBs, DBs, sandbags, pull-up rig, boxes, jump ropes, and a measured outdoor 200/400 m loop. A BikeErg is not assumed.
- **Holidays:** only Remembrance Day (Wed Nov 11) falls inside the block (holiday hours). The block ends Dec 20, before Christmas.
- **Weekend:** no Saturday or Sunday sessions in this version. Running in class is lower than the full-week version (about 2.2–2.8 km a week) because the Saturday runs are gone; members who want more can add an easy weekend run on their own.

Strength progression (all 9 weeks)

Percentages are of estimated 1RM (e1RM = 3RM × 1.06; press e1RM = 5RM × 1.13). RPE 8 cap on every set. The example column shows the top working load for a squat e1RM of 225 lb / 100 kg.

Wk	Phase	Back squat (Mon)	Deadlift (Wed)	Strict press (Fri)	Clean / front squat (Fri)	Example
1	Test	TEST: build to 3RM	TEST: build to 3RM	TEST: build to 5RM	—	test
2	Base	4 × 8 @ 65%	3 × 8 @ 65%	4 × 8 @ 65%	EMOM 8: 1 hang power clean + 2 front squats (empty bar → RPE 6)	145 lb / 65 kg
3	Base	5 × 6 @ 70%	4 × 6 @ 70%	5 × 6 @ 70%	EMOM 10: 2 hang power cleans + 1 front squat (RPE 6–7)	160 lb / 70 kg
4	Base	5 × 5 @ 75%	4 × 5 @ 75%	5 × 5 @ 75%	Every 1:30 × 6: power clean + hang power clean + front squat (RPE 7)	170 lb / 75 kg
5	Build	5 × 3 @ 80%	4 × 3 @ 80%	5 × 3 @ 77.5%	Every 2:00 × 6: 2 power cleans, build to RPE 8	180 lb / 80 kg
6	Build	1 × 3 @ 80%, 3 × 3 @ 85%	1 × 3 @ 80%, 2 × 3 @ 85%	1 × 3 @ 80%, 3 × 3 @ 82.5%	Every 2:00 × 5: 1 power clean + 2 front squats, build to RPE 8	190 lb / 85 kg
7	Primer/ Deload	2 × 3 @ 75%, 1 × 2 @ 85%	2 × 3 @ 75%, 1 × 1 @ 85%	2 × 3 @ 75%, 1 × 2 @ 82.5%	EMOM 6: 2 power cleans, light and fast (RPE 6)	190 lb / 85 kg
8	Retest	RETEST: build to 3RM	RETEST: build to 3RM	RETEST: build to 5RM	—	test
9	Flex	Optional technique: 3 × 5 @ 65%	Optional technique: 3 × 5 @ 60%	Optional technique: 3 × 5 @ 60%	—	145 lb / 65 kg

Week 7 (primer/deload): two easy triples, then one heavy double/single that should feel fast. Week 9 lifting is optional technique work around the benchmarks.

Load lookup: % of e1RM (lb, rounded to 5 lb)

Week 1 · Test · Oct 19–25

Phase	Focus	Skill block	Class running (Rx)
Test	Set strength numbers and run paces; normal training around the tests	T2B: hollow/arch foundations	≈ 2.2 km (Mon–Fri)

Coach intent: Strength and run tests only, with normal training around them. Find honest numbers: a clean rep beats a heavy ugly one.
Strength this week: squat TEST: build to 3RM · deadlift TEST: build to 3RM · press TEST: build to 5RM

Day	Session	Effort
Mon Oct 19	TEST: 3RM Back Squat + Bike Intervals	HARD
Tue Oct 20	TEST: 1 km Run Time Trial + T2B Foundations	HARD
Wed Oct 21	TEST: 3RM Deadlift + Easy Aerobic Rounds	HARD
Thu Oct 22	Accessory Strength + Easy Row/Bike Intervals	EASY
Fri Oct 23	TEST: 5RM Strict Press + HYROX Station AMRAP	MODERATE

MONDAY Oct 19 TEST: 3RM Back Squat + Bike Intervals [HARD]

Purpose	Set this block's squat percentages. Short, fast intervals afterwards to open up the lungs.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–35** 3RM test · **35–48** Workout · **48–53** Accessory · **53–60** Cool-down + log		
Warm-up	General (5 min): 2 rounds: 200 m easy row, 10 air squats, 10 band pull-aparts, 5 inchworms. Specific (6 min): 10 goblet squats with 3 s pause, 10/side banded lateral walks, 10 empty-bar back squats, then ramp sets.		
Strength	TEST: build to a 3RM back squat in 18 min. Ladder: bar × 8, ~50% × 5, ~65% × 3, ~75% × 3, then 2–4 attempts at 3 reps, adding 5–20 lb (2.5–10 kg). Coach calls the set if depth or position breaks. The last clean set = your 3RM. New to the barbell or returning from injury: 3RM goblet or box squat at RPE 8.		
Workout	**6 rounds: 0:30 hard / 1:30 easy (12:00).** Same machine all 6 rounds.		
Levels	**Rx:** Air bike or BikeErg. Hard = RPE 9.	**Intermediate:** Rower. Hard = RPE 8.	**Foundations:** Any machine. Hard = RPE 7, smooth.
Score	**Cap** 12:00 (fixed) · **Target** Hold calories within 10% from round 1 to round 6. · **Feel** Gas · **Pace** Reach		
Notes	Masters: RPE 8 max on the hard pieces. Knee or back pain: bike only.		
Accessory	Superset 2 rounds, RIR 3: 10/side DB split squats (light) + 30 s/side side plank.		
Cool-down	3 min easy bike; couch stretch 1 min/side; child's pose 1 min. Log your loads.		

TUESDAY Oct 20 TEST: 1 km Run Time Trial + T2B Foundations [HARD]

Purpose	The block's only run test: your 1 km time sets everyone's run paces (see Coach notes). The skill work stays light: no max sets today.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–27** Skill · **27–55** Workout · **55–60** Cool-down		
Warm-up	General (5 min): 400 m easy jog (or 500 m row), leg swings, 2 × 20 m A-skips. Specific (6 min): 2 × 10 hollow rocks + 10 arch rocks, 10 scap pull-ups, 2 × 100 m build-up strides.		
Skill	T2B level 1, every 2:00 × 4 (light, not a test): 20 s hollow hold + 10 arch rocks + 5 scap pull-ups + 5 hanging knee raises. Int: same. Fdn: tuck hollow, lying leg raises.		
Workout	**TEST: 1 km run time trial (as fast as you can hold for the full 1 km).** Start in waves of 4–6. Rest 8–10 min after (walk, drink water). Then 12:00 easy, RPE 5: 3 rounds of 400 m easy run + 10 ring rows + 10 sit-ups.		
Levels	**Rx:** 1 km run, hard but even: same pace each 200 m.	**Intermediate:** 1 km run, even pace.	**Foundations:** 1 km run/walk, or 1,000 m row (record which).
Score	**Cap** 25:00 · **Target** Rx 3:45–4:45 · Int 4:45–5:45 · Fdn 5:45–8:00. · **Feel** Cardio · **Pace** Reach		
Notes	Icy route or no outdoor option: 1,000 m row (or 2,000 m BikeErg if available) and repeat the same option in Week 8. Easy rounds on an icy day: 500 m row instead of each 400 m run.		
Cool-down	Walk 2 min; calf and hamstring stretch 1 min/side; lat stretch on rig 1 min.		

WEDNESDAY Oct 21 TEST: 3RM Deadlift + Easy Aerobic Rounds [HARD]

Purpose	Deadlift baseline, then easy rounds to move and breathe. No run test today.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–32** 3RM test · **32–46** Easy rounds · **46–52** Core · **52–60** Cool-down + log		
Warm-up	General (5 min): 2 rounds: 250 m easy row, 10 PVC good mornings, 10 bird dogs, 5 push-ups. Specific (6 min): 10 KB deadlifts, 8 empty-bar RDLs, then ramp sets.		
Strength	TEST: build to a 3RM deadlift in 16 min. Ladder: 40% × 5, 55% × 3, 65% × 3, 75% × 3, then 2–4 attempts at 3, adding 10–30 lb (5–15 kg). No touch-and-go: reset each rep. Coach stops the set if the back rounds. Fdn: 3RM KB or trap-bar deadlift at RPE 8.		
Workout	**3 rounds, not for time, at RPE 5–6 (about 12 min):** 250 m row 10 ring rows 10 hollow rocks 10 KB deadlifts (light)		
Levels	**Rx:** Ring rows with feet forward · KB 35/26 lb (16/12 kg)	**Intermediate:** Ring rows at 45° · KB 26/18 lb (12/8 kg)	**Foundations:** 200 m row · ring rows, high angle · tuck hollow rocks · KB 26/18 lb (12/8 kg)
Score	**Cap** 14:00 · **Target** Smooth and easy; breathing should stay calm. · **Feel** Cardio (easy) · **Pace** Sustain		
Notes	Low back after the test: bike instead of rowing; skip the KB deadlifts.		
Accessory	Core, 2 rounds: 10/side dead bugs + 20 s/side side plank.		
Cool-down	3 min easy row; pigeon 1 min/side; dead hang 3 × 15 s.		

THURSDAY Oct 22 Accessory Strength + Easy Row/Bike Intervals [EASY]

Purpose	Recovery plus a movement screen: coaches watch squats, hinges and overhead positions and note injuries for later scaling.		
Time (60 min)	**0–3** Brief · **3–10** Warm-up · **10–31** Accessory strength · **31–52** Easy intervals · **52–60** Cool-down + mobility		
Warm-up	General (4 min): 2 min easy bike or row, then 10 90/90 hip switches and 5/side world's greatest stretch. Specific (3 min): 5/side light single-leg Romanian deadlifts, 10 band pull-aparts.		
Accessory strength	Movement screen first (coach watches each member in turn): 5 air squats, 5 PVC overhead squats, 20 s/side single-leg balance, 20 s dead hang. Then 2 rounds, RIR 3: A1) 10 DB bent-over rows A2) 8/side single-leg Romanian deadlift (light DB) A3) 10/side dead bugs		
Easy intervals	**4 × 4:00 easy / 1:00 rest (19:00). Alternate row and air bike each round if there are enough machines.** Effort: Zone 2, about 4–5/10. You can talk in full sentences the whole time.		
Levels	**Rx:** Row or air bike, RPE 5.	**Intermediate:** Row or air bike, RPE 4–5.	**Foundations:** Air bike or row, RPE 4. Rounds can be 1:00 shorter.
Score	**Cap** 19:00 (fixed) · **Target** Same pace every round. Row: 500 m split about 0:15–0:25 slower than your 1 km test split. Bike: same calories each round (±1). · **Feel** Cardio (easy) · **Pace** Sustain		
Notes	Not enough machines? Run the class in two waves: wave 1 does the intervals while wave 2 does the accessory strength, then swap. Masters/injury: best day for extra mobility or rehab work; coach checks in 1-on-1.		
Cool-down + mobility	3 min easy bike; hip flexor and hamstring stretch 1 min/side; 1 min deep-squat hold.		

FRIDAY Oct 23 TEST: 5RM Strict Press + HYROX Station AMRAP [MODERATE]

Purpose	Press baseline, then a first, steady look at four HYROX stations (not a max effort).		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–32** 5RM press · **32–48** Station school + AMRAP · **48–52** Accessory · **52–60** Cool-down		
Warm-up	General (5 min): 3 min easy bike, 10 PVC pass-throughs, 10 PVC overhead squats. Specific (7 min): barbell drills × 5 each: down-and-up, elbows high & fast, muscle clean, hang power clean; 10 empty-bar strict presses.		
Clean + Press	TEST: build to a 5RM strict press in 15 min. Ladder: bar × 10, ~50% × 5, ~65% × 5, then 2–4 attempts at 5, adding 5–10 lb (2.5–5 kg). No leg drive; ribs down. Fdn: 5RM DB strict press (record the per-hand load).		
Workout	**Station school (4 min): coach demos the wall ball, farmers carry, sandbag lunge and burpee broad jump standards.** Then AMRAP 10:00, steady (RPE 6), on your own: 10 wall balls 20 m farmers carry 10 sandbag lunges (total) 4 burpee broad jumps		
Levels	**Rx:** Wall balls 14/10 lb (6/4 kg) · farmers 2 × 53/35 lb (2 × 24/16 kg) · sandbag 44/22 lb (20/10 kg)	**Intermediate:** Wall balls 10/6 lb (4/3 kg) · farmers 2 × 35/26 lb (2 × 16/12 kg) · sandbag 33/22 lb (15/10 kg)	**Foundations:** Wall balls 10/6 lb (4/3 kg) to a lower target · farmers 2 × 26/18 lb (2 × 12/8 kg) · bodyweight lunges · step-back burpee + jump
Score	**Cap** 10:00 · **Target** Rx 5–7 rounds. Week 8 repeats this piece: compare. · **Feel** Cardio · **Pace** Sustain		
Notes	Shoulder after the press test: goblet squats instead of wall balls. Knees: step-ups instead of lunges.		
Accessory	Superset 2 rounds, RIR 3: 10 band face pulls + 10 hollow rocks.		
Cool-down	3 min easy bike; doorway pec stretch 1 min/side; box breathing 1 min.		

Week 2 · Base · Oct 26–Nov 1

Phase	Focus	Skill block	Class running (Rx)
Base	Volume at easy-moderate effort	T2B baseline (light test) + strict pulling	≈ 2.4 km (Mon–Fri)

Coach intent: Base volume at easy-moderate effort. Leave every class feeling you could do a little more.
Strength this week: squat 4 × 8 @ 65% · deadlift 3 × 8 @ 65% · press 4 × 8 @ 65%

Day	Session	Effort
Mon Oct 26	Back Squat 4×8 + Row/Swing EMOM	HARD
Tue Oct 27	T2B Baseline + Aerobic Rounds	MODERATE
Wed Oct 28	Deadlift 3×8 + 20-min Station Threshold AMRAP	MODERATE
Thu Oct 29	Accessory Strength + Easy Row/Bike Intervals	EASY
Fri Oct 30	Clean Technique + Press 4×8 + 15-12-9 Sprint	HARD

MONDAY Oct 26 Back Squat 4×8 + Row/Swing EMOM [HARD]

Purpose	Build squat volume at moderate loads; short, repeatable intervals on legs that already worked.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–35** Back squat · **35–50** Workout · **50–55** Accessory · **55–60** Cool-down		
Warm-up	General (5 min): 2 rounds: 200 m easy row, 10 air squats, 10 band pull-aparts, 5 inchworms. Specific (6 min): 10 goblet squats with 3 s pause, 10/side banded lateral walks, 10 empty-bar back squats, then ramp sets.		
Strength	Back squat: 4 × 8 @ 65% (rest 2:00). Ramp: empty bar × 10, 40% × 5, 50% × 3, 60% × 2, then working sets. RPE cap 8: if a set goes past RPE 8, drop 5–10%. Fdn: goblet or box squat at RPE 7.		
Workout	**EMOM 12 (4 rounds):** min 1: cal row min 2: KB swings min 3: burpees		
Levels	**Rx:** 12/9 cal row · 12 swings 53/35 lb (24/16 kg) · 8 burpees	**Intermediate:** 10/8 cal row · 12 swings 35/26 lb (16/12 kg) · 6 burpees	**Foundations:** 8/6 cal row · 10 Russian swings 26/18 lb (12/8 kg) · 5 step-back burpees
Score	**Cap** 12:00 (fixed) · **Target** Each minute done in 35–45 s. · **Feel** Cardio · **Pace** Sustain		
Notes	Low back: KB deadlifts instead of swings.		
Accessory	Superset 3 rounds, RIR 3: 10/side DB reverse lunges + 10 hollow rocks.		
Cool-down	3 min easy bike; couch stretch 1 min/side; child's pose 1 min. Log your loads.		

TUESDAY Oct 27 T2B Baseline + Aerobic Rounds [MODERATE]

Purpose	Light skill baseline for the block's one skill (toes-to-bar), then easy aerobic volume.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–27** Skill · **27–55** Workout · **55–60** Cool-down		
Warm-up	General (5 min): 400 m easy jog (or 500 m row), leg swings, 2 × 20 m A-skips. Specific (6 min): 2 × 10 hollow rocks + 10 arch rocks, 10 scap pull-ups, 2 × 100 m build-up strides.		
Skill	BASELINE (one fresh attempt, record it): max unbroken toes-to-bar. Int/Fdn: max hanging knee raises to hip height. Then T2B level 1, every 2:00 × 4: 20 s hollow hold + 5 scap pull-ups + 3–5 strict pull-ups (3 s lowering). Int: band-assisted strict. Fdn: ring rows (feet forward), 3 s lowering.		
Workout	**Not for time, 28:00 at RPE 5–6. 4 rounds:** run 400 m row 15 wall balls (light) 30 s double-under practice		
Levels	**Rx:** 600 m run · wall balls 14/10 lb (6/4 kg) · 30 s double-unders	**Intermediate:** 500 m run · wall balls 10/6 lb (4/3 kg) · 30 s double-under attempts	**Foundations:** 400 m run/walk · 300 m row · 10 wall balls 10/6 lb (4/3 kg) · 30 s single-unders
Score	**Cap** 28:00 · **Target** 4 rounds at a pace you could hold for 40 min. · **Feel** Cardio · **Pace** Sustain		
Notes	Icy/snow day: 400 m run = 500 m row = 20/16 cal air bike. Log which one you did.		
Cool-down	Walk 2 min; calf and hamstring stretch 1 min/side; lat stretch on rig 1 min.		

WEDNESDAY Oct 28 Deadlift 3×8 + 20-min Station Threshold AMRAP [MODERATE]

Purpose	Hinge volume, then our first threshold piece (threshold = the fastest pace you could hold for 20–40 min, about 7/10 effort) using four HYROX stations, on your own.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–30** Deadlift · **30–52** Workout · **52–56** Accessory · **56–60** Cool-down		
Warm-up	General (5 min): 2 rounds: 250 m easy row, 10 PVC good mornings, 10 bird dogs, 5 push-ups. Specific (6 min): 10 KB deadlifts, 8 empty-bar RDLs, then ramp sets.		
Strength	Deadlift: 3 × 8 @ 65% (rest 2:00). Ramp: 40% × 5, 50% × 3, 60% × 2, then working sets. Reset every rep: no bouncing. RPE cap 8. Fdn: KB or trap-bar deadlift at RPE 7.		
Workout	**AMRAP 20:00 at RPE 6–7 (about 7/10):** 12/10 cal row 10 wall balls 20 m farmers carry 10 sandbag lunges (total)		
Levels	**Rx:** Wall balls 14/10 lb (6/4 kg) · farmers 2 × 53/35 lb (2 × 24/16 kg) · sandbag 44/22 lb (20/10 kg)	**Intermediate:** Wall balls 10/6 lb (4/3 kg) · farmers 2 × 35/26 lb (2 × 16/12 kg) · sandbag 33/22 lb (15/10 kg)	**Foundations:** 10/8 cal row · wall balls 10/6 lb (4/3 kg) · farmers 2 × 26/18 lb (2 × 12/8 kg) · bodyweight lunges
Score	**Cap** 20:00 · **Target** Rx 6–8 rounds; every round within ±15 s of round 1. · **Feel** Cardio · **Pace** Sustain		
Notes	Knees: step-ups instead of lunges. Low back: lighter farmers carry.		
Accessory	Superset 3 rounds, RIR 2–3: 10 DB bent-over rows + 30 s heavy farmers hold 2 × 53/35 lb (2 × 24/16 kg).		
Cool-down	3 min easy row; pigeon 1 min/side; dead hang 3 × 15 s.		

THURSDAY Oct 29 Accessory Strength + Easy Row/Bike Intervals [EASY]

Purpose	The easy day: accessory strength for joints and posture, then easy aerobic intervals with set work and rest. Nobody should breathe hard today.		
Time (60 min)	**0–3** Brief · **3–10** Warm-up · **10–31** Accessory strength · **31–52** Easy intervals · **52–60** Cool-down + mobility		
Warm-up	General (4 min): 2 min easy bike or row, then 10 90/90 hip switches and 5/side world's greatest stretch. Specific (3 min): 5/side light single-leg Romanian deadlifts, 10 band pull-aparts.		
Accessory strength	3 rounds, RIR 3 (1:00 rest after each round): A1) 8/side single-leg Romanian deadlift (light DB) A2) 10 DB bent-over rows A3) 10/side dead bugs + 20 s/side side plank		
Easy intervals	**4 × 4:00 easy / 1:00 rest (19:00). Alternate row and air bike each round if there are enough machines.** Effort: Zone 2, about 4–5/10. You can talk in full sentences the whole time.		
Levels	**Rx:** Row or air bike, RPE 5.	**Intermediate:** Row or air bike, RPE 4–5.	**Foundations:** Air bike or row, RPE 4. Rounds can be 1:00 shorter.
Score	**Cap** 19:00 (fixed) · **Target** Same pace every round. Row: 500 m split about 0:15–0:25 slower than your 1 km test split. Bike: same calories each round (±1). · **Feel** Cardio (easy) · **Pace** Sustain		
Notes	Not enough machines? Run the class in two waves: wave 1 does the intervals while wave 2 does the accessory strength, then swap. Masters/injury: best day for extra mobility or rehab work; coach checks in 1-on-1.		
Cool-down + mobility	3 min easy bike; hip flexor and hamstring stretch 1 min/side; 1 min deep-squat hold.		

FRIDAY Oct 30 Clean Technique + Press 4×8 + 15-12-9 Sprint [HARD]

Purpose	Learn clean positions with an empty or light bar; then a short, punchy finisher.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–33** Clean + strict press · **33–52** Workout · **52–60** Cool-down		
Warm-up	General (5 min): 3 min easy bike, 10 PVC pass-throughs, 10 PVC overhead squats. Specific (7 min): barbell drills × 5 each: down-and-up, elbows high & fast, muscle clean, hang power clean; 10 empty-bar strict presses.		
Clean + Press	A) Clean technique: EMOM 8: 1 hang power clean + 2 front squats (empty bar → RPE 6). B) Strict press: 4 × 8 @ 65% (rest 1:30–2:00); superset with 10 band face pulls. RPE cap 8. Fdn: DB strict press, same reps.		
Workout	**For time, 15-12-9:** cal row wall balls burpees		
Levels	**Rx:** Wall balls 20/14 lb (9/6 kg) to 10/9 ft	**Intermediate:** Wall balls 14/10 lb (6/4 kg) to 9 ft	**Foundations:** 12-9-6 · wall balls 10/6 lb (4/3 kg) · step-back burpees
Score	**Cap** 12:00 · **Target** Rx 7:00–9:30. · **Feel** Gas · **Pace** Reach		
Notes	Knees: wall balls to a lower target.		
Cool-down	3 min easy bike; doorway pec stretch 1 min/side; box breathing 1 min.		

Week 3 · Base · Nov 2–8

Phase	Focus	Skill block	Class running (Rx)
Base	A bit more work, same effort	T2B: kip swing	≈ 2.4 km (Mon–Fri)

Coach intent: Same easy rhythm, a little more work. Toes-to-bar gets a controlled kip swing.
Strength this week: squat 5 × 6 @ 70% · deadlift 4 × 6 @ 70% · press 5 × 6 @ 70%

Day	Session	Effort
Mon Nov 2	Back Squat 5×6 + Row/Burpee Intervals	HARD
Tue Nov 3	T2B Kip Swing + Aerobic Run Intervals	MODERATE
Wed Nov 4	Deadlift 4×6 + Station Threshold 3×7	MODERATE
Thu Nov 5	Accessory Strength + Easy Row/Bike Intervals	EASY
Fri Nov 6	Clean + Press 5×6 + 10-min AMRAP	HARD

MONDAY Nov 2 Back Squat 5×6 + Row/Burpee Intervals [HARD]

Purpose	More squat volume at 70%; short intervals with a built-in score.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–35** Back squat · **35–50** Workout · **50–55** Accessory · **55–60** Cool-down		
Warm-up	General (5 min): 2 rounds: 200 m easy row, 10 air squats, 10 band pull-aparts, 5 inchworms. Specific (6 min): 10 goblet squats with 3 s pause, 10/side banded lateral walks, 10 empty-bar back squats, then ramp sets.		
Strength	Back squat: 5 × 6 @ 70% (rest 2:00). Ramp: empty bar × 10, 40% × 5, 50% × 3, 60% × 2, then working sets. RPE cap 8: if a set goes past RPE 8, drop 5–10%. Fdn: goblet or box squat at RPE 7.		
Workout	**4 rounds: 2:00 work / 1:00 rest (12:00):** cal row, then max burpees in the time left. Score = total burpees.		
Levels	**Rx:** 12/9 cal row + burpees	**Intermediate:** 10/8 cal row + burpees	**Foundations:** 8/6 cal row (or air bike) + step-back burpees
Score	**Cap** 12:00 (fixed) · **Target** Rx 10–14 burpees per round, steady across all 4. · **Feel** Gas · **Pace** Reach		
Notes	Shoulder: air bike instead of row; burpees without the push-up.		
Accessory	Superset 3 rounds, RIR 3: 8/side DB Bulgarian split squats + 10/side bird dogs.		
Cool-down	3 min easy bike; couch stretch 1 min/side; child's pose 1 min. Log your loads.		

TUESDAY Nov 3 T2B Kip Swing + Aerobic Run Intervals [MODERATE]

Purpose	Add a controlled kip to the hollow/arch base; aerobic volume at a talking pace.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–27** Skill · **27–55** Workout · **55–60** Cool-down		
Warm-up	General (5 min): 400 m easy jog (or 500 m row), leg swings, 2 × 20 m A-skips. Specific (6 min): 2 × 10 hollow rocks + 10 arch rocks, 10 scap pull-ups, 2 × 100 m build-up strides.		
Skill	T2B level 2, every 2:00 × 5: 6 hollow/arch kip swings + 5 hanging knee raises + 2–4 strict pull-ups. Int: kip swings + knee raises, banded pull-ups. Fdn: 10 s tight hollow hang + lying leg raises + ring rows.		
Workout	**3 × 9:00 on / 1:00 off (29:00), RPE 6:** run, then alternating DB snatches, then easy row until the 9:00 ends.		
Levels	**Rx:** 800 m run · 20 alt DB snatches 35/25 lb (15/10 kg) · row	**Intermediate:** 700 m run · 20 alt DB snatches 20/15 lb (9/7 kg) · row	**Foundations:** 500 m run/walk · 20 alt DB hang snatches 10–15 lb (5–7 kg) · row
Score	**Cap** 29:00 · **Target** Same run split every round (±10 s). · **Feel** Cardio · **Pace** Sustain		
Notes	Icy/snow day: 400 m run = 500 m row = 20/16 cal air bike. Log which one you did.		
Cool-down	Walk 2 min; calf and hamstring stretch 1 min/side; lat stretch on rig 1 min.		

WEDNESDAY Nov 4 Deadlift 4×6 + Station Threshold 3×7 [MODERATE]

Purpose	Hinge volume at 70%, then 3 identical threshold efforts (about 7/10) on HYROX stations.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–30** Deadlift · **30–52** Workout · **52–56** Accessory · **56–60** Cool-down		
Warm-up	General (5 min): 2 rounds: 250 m easy row, 10 PVC good mornings, 10 bird dogs, 5 push-ups. Specific (6 min): 10 KB deadlifts, 8 empty-bar RDLs, then ramp sets.		
Strength	Deadlift: 4 × 6 @ 70% (rest 2:00). Ramp: 40% × 5, 50% × 3, 60% × 2, then working sets. Reset every rep: no bouncing. RPE cap 8. Fdn: KB or trap-bar deadlift at RPE 7.		
Workout	**3 × 7:00 AMRAP / 1:00 rest:** 250 m row 12 sandbag lunges (total) 6 burpee broad jumps		
Levels	**Rx:** Sandbag 44/22 lb (20/10 kg)	**Intermediate:** Sandbag 33/22 lb (15/10 kg)	**Foundations:** 200 m row · sandbag 22/13 lb (10/6 kg) or bodyweight · step-back burpee + jump
Score	**Cap** 23:00 · **Target** Same score (±1 round) in all three. · **Feel** Cardio · **Pace** Sustain		
Notes	Knees: step-ups instead of lunges.		
Accessory	Superset 3 rounds, RIR 2–3: 5 strict chin-up negatives (5 s) or 10 ring rows + 40 m/side suitcase carry (heavy KB).		
Cool-down	3 min easy row; pigeon 1 min/side; dead hang 3 × 15 s.		

THURSDAY Nov 5 Accessory Strength + Easy Row/Bike Intervals [EASY]

Purpose	The easy day: accessory strength for joints and posture, then easy aerobic intervals with set work and rest. Nobody should breathe hard today.		
Time (60 min)	**0–3** Brief · **3–10** Warm-up · **10–31** Accessory strength · **31–52** Easy intervals · **52–60** Cool-down + mobility		
Warm-up	General (4 min): 2 min easy bike or row, then 10 90/90 hip switches and 5/side world's greatest stretch. Specific (3 min): 5/side light single-leg Romanian deadlifts, 10 band pull-aparts.		
Accessory strength	3 rounds, RIR 3 (1:00 rest after each round): A1) 8/side single-leg Romanian deadlift (light DB) A2) 10 DB bent-over rows A3) 10/side dead bugs + 20 s/side side plank		
Easy intervals	**3 × 6:00 easy / 1:00 rest (20:00). Alternate row and air bike each round if there are enough machines.** Effort: Zone 2, about 4–5/10. You can talk in full sentences the whole time.		
Levels	**Rx:** Row or air bike, RPE 5.	**Intermediate:** Row or air bike, RPE 4–5.	**Foundations:** Air bike or row, RPE 4. Rounds can be 1:00 shorter.
Score	**Cap** 20:00 (fixed) · **Target** Same pace every round. Row: 500 m split about 0:15–0:25 slower than your 1 km test split. Bike: same calories each round (±1). · **Feel** Cardio (easy) · **Pace** Sustain		
Notes	Not enough machines? Run the class in two waves: wave 1 does the intervals while wave 2 does the accessory strength, then swap. Masters/injury: best day for extra mobility or rehab work; coach checks in 1-on-1.		
Cool-down + mobility	3 min easy bike; hip flexor and hamstring stretch 1 min/side; 1 min deep-squat hold.		

FRIDAY Nov 6 Clean + Press 5×6 + 10-min AMRAP [HARD]

Purpose	More clean technique reps; the block skill appears in a short workout.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–33** Clean + strict press · **33–52** Workout · **52–60** Cool-down		
Warm-up	General (5 min): 3 min easy bike, 10 PVC pass-throughs, 10 PVC overhead squats. Specific (7 min): barbell drills × 5 each: down-and-up, elbows high & fast, muscle clean, hang power clean; 10 empty-bar strict presses.		
Clean + Press	A) Clean technique: EMOM 10: 2 hang power cleans + 1 front squat (RPE 6–7). B) Strict press: 5 × 6 @ 70% (rest 1:30–2:00); superset with 10 band face pulls. RPE cap 8. Fdn: DB strict press, same reps.		
Workout	**AMRAP 10:00:** 6 alt DB hang clean & jerks 8 toes-to-bar 10/8 cal row		
Levels	**Rx:** DB 50/35 lb (22.5/15 kg) · T2B	**Intermediate:** DB 35/25 lb (15/10 kg) · hanging knee raises	**Foundations:** DB 20/15 lb (9/7 kg) · 8 lying leg raises · 8/6 cal row
Score	**Cap** 10:00 · **Target** Rx 6–8 rounds. · **Feel** Cardio · **Pace** Reach		
Notes	Keep T2B sets under 1:00 a round; break early.		
Cool-down	3 min easy bike; doorway pec stretch 1 min/side; box breathing 1 min.		

Week 4 · Base · Nov 9–15

Phase	Focus	Skill block	Class running (Rx)
Base	Heavier fives; Cindy	T2B: kipping knee raise	≈ 2.4 km (Mon–Fri)

Coach intent: Last Base week: heavier fives and Cindy on Friday, so progress stays visible mid-block.
Strength this week: squat 5 × 5 @ 75% · deadlift 4 × 5 @ 75% · press 5 × 5 @ 75%

Holiday schedule: Wed Nov 11 is Remembrance Day (PEI statutory holiday): run the Wednesday class on holiday hours.

Day	Session	Effort
Mon Nov 9	Back Squat 5×5 + Row/Press Intervals	HARD
Tue Nov 10	T2B Kipping Knee Raise + Aerobic Every 8:00	MODERATE
Wed Nov 11	Deadlift 4×5 + 25-min Row Threshold + Stations	MODERATE
Thu Nov 12	Accessory Strength + Easy Row/Bike Intervals	EASY
Fri Nov 13	Clean Complex + Press 5×5 + CINDY	HARD

MONDAY Nov 9 Back Squat 5×5 + Row/Press Intervals [HARD]

Purpose	Top of the Base phase for squats. Intervals stay short and repeatable.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–35** Back squat · **35–50** Workout · **50–55** Accessory · **55–60** Cool-down		
Warm-up	General (5 min): 3 min easy bike, then 2 rounds: 8/side Cossack squats, 10 glute bridges, 10 scap push-ups. Specific (6 min): 2 × 5 pause back squats (empty bar), 3 low box jumps, then ramp sets.		
Strength	Back squat: 5 × 5 @ 75% (rest 2:30). Ramp: empty bar × 10, 40% × 5, 50% × 3, 60% × 2, then working sets. RPE cap 8: if a set goes past RPE 8, drop 5–10%. Fdn: goblet or box squat at RPE 7.		
Workout	**Every 2:00 × 6 (12:00):** cal row + DB push press; rest the rest of each 2:00.		
Levels	**Rx:** 14/11 cal row + 8 push press 2 × 35/25 lb (15/10 kg)	**Intermediate:** 12/9 cal row + 8 push press 2 × 20/15 lb (9/7 kg)	**Foundations:** 10/7 cal row + 8 push press 2 × 10 lb (5 kg)
Score	**Cap** 12:00 (fixed) · **Target** Each round under 1:10. · **Feel** Gas · **Pace** Reach		
Notes	Shoulder: single-arm landmine press.		
Accessory	Superset 3 rounds, RIR 3: 8/side goblet Cossack squats + 30 s/side Pallof hold.		
Cool-down	3 min easy bike; couch stretch 1 min/side; child's pose 1 min. Log your loads.		

TUESDAY Nov 10 T2B Kipping Knee Raise + Aerobic Every 8:00 [MODERATE]

Purpose	Link the kip to the knee raise; aerobic intervals.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–27** Skill · **27–55** Workout · **55–60** Cool-down		
Warm-up	General (5 min): 2 min easy jump rope, 200 m jog, high knees and butt kicks. Specific (6 min): 10 scap pull-ups, 2 × 10 hollow-to-arch swings on the bar, 5 kipping knee raises, 2 × 100 m strides.		
Skill	T2B level 3, EMOM 10: odd: 3–5 kipping knee raises (knees above hips) · even: 3 kip swings + 2–3 T2B singles (if ready). Int: knee raises only. Fdn: hollow rocks + lying leg raises.		
Workout	**Every 8:00 × 4 (32:00), RPE 6:** run 15 wall balls 10/8 cal bike (easy) Rest the rest of each 8:00.		
Levels	**Rx:** 600 m run · wall balls 14/10 lb (6/4 kg)	**Intermediate:** 500 m run · wall balls 10/6 lb (4/3 kg)	**Foundations:** 400 m run/walk · 10 wall balls 10/6 lb (4/3 kg)
Score	**Cap** 32:00 (fixed) · **Target** Run splits within 10 s; 2–3 min rest each round. · **Feel** Cardio · **Pace** Sustain		
Notes	Icy/snow day: 400 m run = 500 m row = 20/16 cal air bike. Log which one you did.		
Cool-down	Walk 2 min; calf and hamstring stretch 1 min/side; lat stretch on rig 1 min.		

WEDNESDAY Nov 11 Deadlift 4×5 + 25-min Row Threshold + Stations [MODERATE]

Purpose	Heaviest Base deadlift; then threshold rowing (about 7/10 effort: breathing hard but controlled) alternating with HYROX stations. Holiday hours today.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–29** Deadlift · **29–55** Workout · **55–57** Accessory · **57–60** Cool-down		
Warm-up	General (5 min): 3 min easy row, then 2 rounds: 10 banded hip hinges, 10/side dead bugs, 10 ring rows. Specific (6 min): 5 slow RDLs + 3 deadlifts at 40–50%, then ramp sets.		
Strength	Deadlift: 4 × 5 @ 75% (rest 2:30). Ramp: 40% × 5, 50% × 3, 60% × 2, then working sets. Reset every rep: no bouncing. RPE cap 8. Fdn: KB or trap-bar deadlift at RPE 7.		
Workout	**25:00 in alternating 5:00 blocks (5 blocks):** odd blocks (3): row at threshold pace (score metres) even blocks (2): as many rounds as possible of 10 wall balls, 20 m farmers carry, 10 sandbag lunges		
Levels	**Rx:** Wall balls 14/10 lb (6/4 kg) · farmers 2 × 53/35 lb (2 × 24/16 kg) · sandbag 44/22 lb (20/10 kg)	**Intermediate:** Wall balls 10/6 lb (4/3 kg) · farmers 2 × 35/26 lb (2 × 16/12 kg) · sandbag 33/22 lb (15/10 kg)	**Foundations:** Wall balls 10/6 lb (4/3 kg) · farmers 2 × 26/18 lb (2 × 12/8 kg) · bodyweight lunges
Score	**Cap** 25:00 (fixed) · **Target** Row metres within 50 m across the 3 row blocks. · **Feel** Cardio · **Pace** Sustain		
Notes	Knees: step-ups instead of lunges.		
Accessory	Superset 2 rounds, RIR 2–3: 10 chest-supported DB rows + 30 s dead hang.		
Cool-down	3 min easy row; pigeon 1 min/side; dead hang 3 × 15 s.		

THURSDAY Nov 12 Accessory Strength + Easy Row/Bike Intervals [EASY]

Purpose	The easy day: accessory strength for joints and posture, then easy aerobic intervals with set work and rest. Nobody should breathe hard today.		
Time (60 min)	**0–3** Brief · **3–10** Warm-up · **10–31** Accessory strength · **31–52** Easy intervals · **52–60** Cool-down + mobility		
Warm-up	General (4 min): 2 min easy row, 10 cat-cows, 10/side couch-stretch rocks. Specific (3 min): 5/side bodyweight step-ups, 10 scap pull-ups, 10 wall slides.		
Accessory strength	3 rounds, RIR 2–3 (1:00 rest after each round): A1) 8/side DB step-ups (knee-height box) A2) 10 ring rows (or 5–6 strict chin-ups) A3) 20 s/side short-lever Copenhagen plank + 15 tibialis raises		
Easy intervals	**3 × 6:00 easy / 1:00 rest (20:00). Alternate row and air bike each round if there are enough machines.** Effort: Zone 2, about 4–5/10. You can talk in full sentences the whole time.		
Levels	**Rx:** Row or air bike, RPE 5.	**Intermediate:** Row or air bike, RPE 4–5.	**Foundations:** Air bike or row, RPE 4. Rounds can be 1:00 shorter.
Score	**Cap** 20:00 (fixed) · **Target** Same pace every round. Row: 500 m split about 0:15–0:25 slower than your 1 km test split. Bike: same calories each round (±1). · **Feel** Cardio (easy) · **Pace** Sustain		
Notes	Not enough machines? Run the class in two waves: wave 1 does the intervals while wave 2 does the accessory strength, then swap. Masters/injury: best day for extra mobility or rehab work; coach checks in 1-on-1.		
Cool-down + mobility	3 min easy row; pigeon 1 min/side; shoulder stretch on a bench 1 min; 1 min dead hang.		

FRIDAY Nov 13 Clean Complex + Press 5×5 + CINDY [HARD]

Purpose	Benchmark Friday: Cindy, a classic bodyweight test of repeatable effort. Log it: it shows mid-block progress.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–32** Clean + press · **33–53** Cindy · **53–60** Cool-down		
Warm-up	General (5 min): 300 m easy row, 10 scap push-ups, 10 air squats. Specific (7 min): clean pull from knee × 5, high-hang power clean × 5, front squat × 5 (empty bar); 2 × 8 band presses.		
Clean + Press	A) Clean complex: every 1:30 × 6 (9 min): power clean + hang power clean + front squat, build to RPE 7. B) Strict press: 5 × 5 @ 75% (rest 1:30). RPE cap 8. Fdn: DB press.		
Workout	**CINDY: AMRAP 20:00:** 5 pull-ups 10 push-ups 15 air squats		
Levels	**Rx:** As written (kipping OK)	**Intermediate:** 5 banded or jumping pull-ups · 10 push-ups (box if needed)	**Foundations:** 5 ring rows · 10 incline push-ups · 15 box squats
Score	**Cap** 20:00 · **Target** Rx 15–20 rounds · Int 12–16 · Fdn 10–14. · **Feel** Cardio · **Pace** Sustain		
Notes	Keep pull-up sets unbroken; scale before you break them into singles.		
Cool-down	3 min easy bike; doorway pec stretch 1 min/side; box breathing 1 min.		

Week 5 · Build · Nov 16–22

Phase	Focus	Skill block	Class running (Rx)
Build	Heavier triples; compromised running starts	T2B: singles to small sets	≈ 2.6 km (Mon–Fri)

Coach intent: Intensity goes up, volume comes down. Compromised running starts on Wednesday: short runs straight off HYROX stations.
Strength this week: squat 5 × 3 @ 80% · deadlift 4 × 3 @ 80% · press 5 × 3 @ 77.5%

Day	Session	Effort
Mon Nov 16	Back Squat 5×3 + Row/Wall Ball Intervals	HARD
Tue Nov 17	T2B Singles to Small Sets + Aerobic Intervals	MODERATE
Wed Nov 18	Deadlift 4×3 + Compromised Running 5s (individual)	MODERATE
Thu Nov 19	Accessory Strength + Easy Row/Bike Intervals	EASY
Fri Nov 20	Power Clean + Press 5×3 + 3 Rounds	HARD

MONDAY Nov 16 Back Squat 5×3 + Row/Wall Ball Intervals [HARD]

Purpose	Heavier triples. Intervals get harder, with longer rests.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–35** Back squat · **35–50** Workout · **50–55** Accessory · **55–60** Cool-down		
Warm-up	General (5 min): 3 min easy bike, then 2 rounds: 8/side Cossack squats, 10 glute bridges, 10 scap push-ups. Specific (6 min): 2 × 5 pause back squats (empty bar), 3 low box jumps, then ramp sets.		
Strength	Back squat: 5 × 3 @ 80% (rest 2:30). Ramp: empty bar × 10, 40% × 5, 50% × 3, 60% × 2, then working sets. RPE cap 8: if a set goes past RPE 8, drop 5–10%. Fdn: goblet or box squat at RPE 7.		
Workout	**Every 3:00 × 4 (12:00):** cal row + wall balls; rest the rest of each 3:00.		
Levels	**Rx:** 15/12 cal row + 10 wall balls 20/14 lb (9/6 kg)	**Intermediate:** 13/10 cal row + 10 wall balls 14/10 lb (6/4 kg)	**Foundations:** 10/8 cal row + 8 wall balls 10/6 lb (4/3 kg)
Score	**Cap** 12:00 (fixed) · **Target** Each round under 1:40. · **Feel** Gas · **Pace** Reach		
Notes	Sore knees after squats: wall balls to a box target.		
Accessory	Superset 3 rounds, RIR 2–3: 8/side rear-foot-elevated split squats + 10 back extensions.		
Cool-down	3 min easy bike; couch stretch 1 min/side; child's pose 1 min. Log your loads.		

TUESDAY Nov 17 T2B Singles to Small Sets + Aerobic Intervals [MODERATE]

Purpose	Turn singles into small sets; aerobic intervals keep building.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–27** Skill · **27–55** Workout · **55–60** Cool-down		
Warm-up	General (5 min): 2 min easy jump rope, 200 m jog, high knees and butt kicks. Specific (6 min): 10 scap pull-ups, 2 × 10 hollow-to-arch swings on the bar, 5 kipping knee raises, 2 × 100 m strides.		
Skill	T2B level 4, every 1:30 × 6: 2–4 T2B in a row (stop before the kip falls apart). Int: 3–5 kipping knee raises + 1 T2B attempt. Fdn: 5 hanging knee raises (tuck).		
Workout	**Every 7:00 × 4 (28:00), RPE 6:** run step-ups cal bike		
Levels	**Rx:** 400 m run · 12 DB step-ups 2 × 20/15 lb (9/7 kg) · 14/11 cal bike	**Intermediate:** 400 m run · 12 bodyweight step-ups · 12/10 cal bike	**Foundations:** 300 m run/walk · 10 step-ups (low box) · 10/8 cal bike
Score	**Cap** 28:00 (fixed) · **Target** Run splits within 10 s. · **Feel** Cardio · **Pace** Sustain		
Notes	Icy/snow day: 400 m run = 500 m row = 20/16 cal air bike. Log which one you did.		
Cool-down	Walk 2 min; calf and hamstring stretch 1 min/side; lat stretch on rig 1 min.		

WEDNESDAY Nov 18 Deadlift 4×3 + Compromised Running 5s (individual) [MODERATE]

Purpose	Heavier deadlift triples, then the first compromised running (running straight off a station on tired legs). Learn to settle into your pace within 100 m.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–28** Deadlift · **28–54** Workout · **54–57** Accessory · **57–60** Cool-down		
Warm-up	General (5 min): 3 min easy row, then 2 rounds: 10 banded hip hinges, 10/side dead bugs, 10 ring rows. Specific (6 min): 5 slow RDLs + 3 deadlifts at 40–50%, then ramp sets.		
Strength	Deadlift: 4 × 3 @ 80% (rest 2:30). Ramp: 40% × 5, 50% × 3, 60% × 2, then working sets. Reset every rep: no bouncing. RPE cap 8. Fdn: KB or trap-bar deadlift at RPE 7.		
Workout	**5 rounds for quality, RPE 7 (about 20 min):** 200 m run → station, in order: 1) 250 m row 2) 25 m sled push 3) 20 wall balls 4) 50 m farmers carry 5) 16 sandbag lunges (total) Each member starts on a different station and goes in order from there, so only 1–2 people use the sled at a time.		
Levels	**Rx:** Wall balls 14/10 lb (6/4 kg) · farmers 2 × 53/35 lb (2 × 24/16 kg) · sandbag 44/22 lb (20/10 kg)	**Intermediate:** Wall balls 10/6 lb (4/3 kg) · farmers 2 × 35/26 lb (2 × 16/12 kg) · sandbag 33/22 lb (15/10 kg)	**Foundations:** 150 m run/walk · 200 m row · 15 wall balls 10/6 lb (4/3 kg) · farmers 2 × 26/18 lb (2 × 12/8 kg) · lunges with sandbag 22/13 lb (10/6 kg) or none
Score	**Cap** 24:00 · **Target** Rx 16:00–20:00. Every 200 m at about threshold pace (1 km test pace + 0:40–0:50 per km). · **Feel** Cardio · **Pace** Sustain		
Notes	Sled: Rx = heavy but moving without stopping for 12.5 m; Int = about 25% lighter; Fdn = sled + light plates. No free sled: 20 m heavy plate push on turf or 20 heavy DB walking lunges. Icy/snow day: 400 m run = 500 m row = 20/16 cal air bike. Log which one you did.		
Accessory	Superset 2 rounds, RIR 2–3: 6–8 strict pull-ups (band if needed) + 30 s hollow hold.		
Cool-down	3 min easy row; pigeon 1 min/side; dead hang 3 × 15 s.		

THURSDAY Nov 19 Accessory Strength + Easy Row/Bike Intervals [EASY]

Purpose	The easy day: accessory strength for joints and posture, then easy aerobic intervals with set work and rest. Nobody should breathe hard today.		
Time (60 min)	**0–3** Brief · **3–10** Warm-up · **10–31** Accessory strength · **31–52** Easy intervals · **52–60** Cool-down + mobility		
Warm-up	General (4 min): 2 min easy row, 10 cat-cows, 10/side couch-stretch rocks. Specific (3 min): 5/side bodyweight step-ups, 10 scap pull-ups, 10 wall slides.		
Accessory strength	3 rounds, RIR 2–3 (1:00 rest after each round): A1) 8/side DB step-ups (knee-height box) A2) 10 ring rows (or 5–6 strict chin-ups) A3) 20 s/side short-lever Copenhagen plank + 15 tibialis raises		
Easy intervals	**2 × 9:00 easy / 1:00 rest (19:00). Alternate row and air bike each round if there are enough machines.** Effort: Zone 2, about 4–5/10. You can talk in full sentences the whole time.		
Levels	**Rx:** Row or air bike, RPE 5.	**Intermediate:** Row or air bike, RPE 4–5.	**Foundations:** Air bike or row, RPE 4. Rounds can be 1:00 shorter.
Score	**Cap** 19:00 (fixed) · **Target** Same pace every round. Row: 500 m split about 0:15–0:25 slower than your 1 km test split. Bike: same calories each round (±1). · **Feel** Cardio (easy) · **Pace** Sustain		
Notes	Not enough machines? Run the class in two waves: wave 1 does the intervals while wave 2 does the accessory strength, then swap. Masters/injury: best day for extra mobility or rehab work; coach checks in 1-on-1.		
Cool-down + mobility	3 min easy row; pigeon 1 min/side; shoulder stretch on a bench 1 min; 1 min dead hang.		

FRIDAY Nov 20 Power Clean + Press 5×3 + 3 Rounds [HARD]

Purpose	Heavier power cleans; a short sprint with a light-moderate DB.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–33** Clean + strict press · **33–52** Workout · **52–60** Cool-down		
Warm-up	General (5 min): 300 m easy row, 10 scap push-ups, 10 air squats. Specific (7 min): clean pull from knee × 5, high-hang power clean × 5, front squat × 5 (empty bar); 2 × 8 band presses.		
Clean + Press	A) Clean technique: Every 2:00 × 6: 2 power cleans, build to RPE 8. B) Strict press: 5 × 3 @ 77.5% (rest 1:30–2:00); superset with 10 band face pulls. RPE cap 8. Fdn: DB strict press, same reps.		
Workout	**3 rounds for time:** 250 m row 12 alt DB snatches 9 bar-facing burpees		
Levels	**Rx:** DB 50/35 lb (22.5/15 kg)	**Intermediate:** DB 35/25 lb (15/10 kg)	**Foundations:** DB 20/15 lb (9/7 kg) · 200 m row · step-back burpees
Score	**Cap** 12:00 · **Target** Rx 7:00–9:00. · **Feel** Gas · **Pace** Reach		
Notes	Shoulder: DB hang clean instead of snatch.		
Cool-down	3 min easy bike; doorway pec stretch 1 min/side; box breathing 1 min.		

Week 6 · Build · Nov 23–29

Phase	Focus	Skill block	Class running (Rx)
Build	Triples to 85%: hardest week of the block	T2B: sets under fatigue	≈ 2.8 km (Mon–Fri)

Coach intent: The hardest week of the block: triples to 85%, T2B under fatigue, two stations back to back off short runs. Primer/deload follows.
Strength this week: squat 1 × 3 @ 80%, 3 × 3 @ 85% · deadlift 1 × 3 @ 80%, 2 × 3 @ 85% · press 1 × 3 @ 80%, 3 × 3 @ 82.5%

Day	Session	Effort
Mon Nov 23	Back Squat Triples to 85% + Bike/Burpee Rounds	HARD
Tue Nov 24	T2B Under Fatigue + Aerobic Rounds	MODERATE
Wed Nov 25	Deadlift Triples to 85% + Station Doubles (individual)	MODERATE
Thu Nov 26	Accessory Strength + Easy Row/Bike Intervals	EASY
Fri Nov 27	Clean + Front Squat + Press Triples + 2 Rounds	HARD

MONDAY Nov 23 Back Squat Triples to 85% + Bike/Burpee Rounds [HARD]

Purpose	Heaviest squat triples of the block; short hard repeats.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–35** Back squat · **35–50** Workout · **50–55** Accessory · **55–60** Cool-down		
Warm-up	General (5 min): 3 min easy bike, then 2 rounds: 8/side Cossack squats, 10 glute bridges, 10 scap push-ups. Specific (6 min): 2 × 5 pause back squats (empty bar), 3 low box jumps, then ramp sets.		
Strength	Back squat: 1 × 3 @ 80%, 3 × 3 @ 85% (rest 2:30–3:00). Ramp: empty bar × 10, 40% × 5, 50% × 3, 60% × 2, then working sets. RPE cap 8: if a set goes past RPE 8, drop 5–10%. Fdn: goblet or box squat at RPE 7.		
Workout	**3 rounds (12:00):** 1:00 max cal bike / 1:00 rest / 1:00 max burpees / 1:00 rest. Score = total calories + reps.		
Levels	**Rx:** Bike + burpees, RPE 9	**Intermediate:** Bike + burpees, RPE 8	**Foundations:** Bike + step-back burpees, RPE 7
Score	**Cap** 12:00 (fixed) · **Target** Rx 100+ total. · **Feel** Gas · **Pace** Reach		
Notes	Knees/back: step-back burpees.		
Accessory	Superset 3 rounds, RIR 2–3: 10/side DB walking lunges 20/15 lb (9/7 kg) + 20 s/side Copenhagen plank.		
Cool-down	3 min easy bike; couch stretch 1 min/side; child's pose 1 min. Log your loads.		

TUESDAY Nov 24 T2B Under Fatigue + Aerobic Rounds [MODERATE]

Purpose	Hold T2B quality when breathing hard; longer aerobic runs.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–27** Skill · **27–55** Workout · **55–60** Cool-down		
Warm-up	General (5 min): 2 min easy jump rope, 200 m jog, high knees and butt kicks. Specific (6 min): 10 scap pull-ups, 2 × 10 hollow-to-arch swings on the bar, 5 kipping knee raises, 2 × 100 m strides.		
Skill	T2B level 5, EMOM 8: odd 30 s easy row or bike, even 4–6 T2B unbroken. Int: kipping knee raises + T2B singles. Fdn: 6 hanging knee raises.		
Workout	**3 rounds, not for time, RPE 6 (about 28:00):** run 15/12 cal row 15 sit-ups 12/10 cal air bike		
Levels	**Rx:** 400 m run	**Intermediate:** 400 m run	**Foundations:** 300 m run/walk
Score	**Cap** 30:00 · **Target** Even run splits; you can talk in short sentences. · **Feel** Cardio · **Pace** Sustain		
Notes	Icy/snow day: 400 m run = 500 m row = 20/16 cal air bike. Log which one you did.		
Cool-down	Walk 2 min; calf and hamstring stretch 1 min/side; lat stretch on rig 1 min.		

WEDNESDAY Nov 25 Deadlift Triples to 85% + Station Doubles (individual) [MODERATE]

Purpose	Heaviest deadlift triples; then two HYROX stations back to back after each short run, the hardest compromised-running piece of the block.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–30** Deadlift · **30–54** Workout · **54–57** Accessory · **57–60** Cool-down		
Warm-up	General (5 min): 3 min easy row, then 2 rounds: 10 banded hip hinges, 10/side dead bugs, 10 ring rows. Specific (6 min): 5 slow RDLs + 3 deadlifts at 40–50%, then ramp sets.		
Strength	Deadlift: 1 × 3 @ 80%, 2 × 3 @ 85% (rest 2:30–3:00). Ramp: 40% × 5, 50% × 3, 60% × 2, then working sets. Reset every rep: no bouncing. RPE cap 8. Fdn: KB or trap-bar deadlift at RPE 7.		
Workout	**4 rounds for quality, RPE 7:** 200 m run → 2 stations: R1: 25 m sled push + 20 wall balls R2: 250 m row + 6 burpee broad jumps R3: 50 m farmers carry + 16 sandbag lunges (total) R4: 25 m sled pull + 20 wall balls Start on different rounds (R1–R4) so only 1–2 people share the sled.		
Levels	**Rx:** Wall balls 14/10 lb (6/4 kg) · farmers 2 × 53/35 lb (2 × 24/16 kg) · sandbag 44/22 lb (20/10 kg)	**Intermediate:** Wall balls 10/6 lb (4/3 kg) · farmers 2 × 35/26 lb (2 × 16/12 kg) · sandbag 33/22 lb (15/10 kg)	**Foundations:** 150 m run/walk · 200 m row · 15 wall balls 10/6 lb (4/3 kg) · farmers 2 × 26/18 lb (2 × 12/8 kg) · lunges with sandbag 22/13 lb (10/6 kg) or none
Score	**Cap** 24:00 · **Target** Rx 16:00–21:00; the last run as fast as the first. · **Feel** Cardio / muscle · **Pace** Sustain		
Notes	Sled: Rx = heavy but moving without stopping for 12.5 m; Int = about 25% lighter; Fdn = sled + light plates. No free sled: see Appendix C. Icy/snow day: 400 m run = 500 m row = 20/16 cal air bike. Log which one you did.		
Accessory	Superset 2 rounds, RIR 2–3: 6–8 strict chin-ups or feet-elevated ring rows + 20 m sandbag bear-hug carry.		
Cool-down	3 min easy row; pigeon 1 min/side; dead hang 3 × 15 s.		

THURSDAY Nov 26 Accessory Strength + Easy Row/Bike Intervals [EASY]

Purpose	The easy day: accessory strength for joints and posture, then easy aerobic intervals with set work and rest. Nobody should breathe hard today.		
Time (60 min)	**0–3** Brief · **3–10** Warm-up · **10–31** Accessory strength · **31–52** Easy intervals · **52–60** Cool-down + mobility		
Warm-up	General (4 min): 2 min easy row, 10 cat-cows, 10/side couch-stretch rocks. Specific (3 min): 5/side bodyweight step-ups, 10 scap pull-ups, 10 wall slides.		
Accessory strength	3 rounds, RIR 2–3 (1:00 rest after each round): A1) 8/side DB step-ups (knee-height box) A2) 10 ring rows (or 5–6 strict chin-ups) A3) 20 s/side short-lever Copenhagen plank + 15 tibialis raises		
Easy intervals	**2 × 9:00 easy / 1:00 rest (19:00). Alternate row and air bike each round if there are enough machines.** Effort: Zone 2, about 4–5/10. You can talk in full sentences the whole time.		
Levels	**Rx:** Row or air bike, RPE 5.	**Intermediate:** Row or air bike, RPE 4–5.	**Foundations:** Air bike or row, RPE 4. Rounds can be 1:00 shorter.
Score	**Cap** 19:00 (fixed) · **Target** Same pace every round. Row: 500 m split about 0:15–0:25 slower than your 1 km test split. Bike: same calories each round (±1). · **Feel** Cardio (easy) · **Pace** Sustain		
Notes	Not enough machines? Run the class in two waves: wave 1 does the intervals while wave 2 does the accessory strength, then swap. Masters/injury: best day for extra mobility or rehab work; coach checks in 1-on-1.		
Cool-down + mobility	3 min easy row; pigeon 1 min/side; shoulder stretch on a bench 1 min; 1 min dead hang.		

FRIDAY Nov 27 Clean + Front Squat + Press Triples + 2 Rounds [HARD]

Purpose	Heavy-ish clean and front squat; a mixed chipper to finish.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–33** Clean + strict press · **33–52** Workout · **52–60** Cool-down		
Warm-up	General (5 min): 300 m easy row, 10 scap push-ups, 10 air squats. Specific (7 min): clean pull from knee × 5, high-hang power clean × 5, front squat × 5 (empty bar); 2 × 8 band presses.		
Clean + Press	A) Clean technique: Every 2:00 × 5: 1 power clean + 2 front squats, build to RPE 8. B) Strict press: 1 × 3 @ 80%, 3 × 3 @ 82.5% (rest 1:30–2:00); superset with 10 band face pulls. RPE cap 8. Fdn: DB strict press, same reps.		
Workout	**2 rounds for time:** 400 m run 20 KB swings 15 push-ups 10 DB thrusters		
Levels	**Rx:** Swings 53/35 lb (24/16 kg) · thrusters 2 × 35/25 lb (15/10 kg)	**Intermediate:** Swings 35/26 lb (16/12 kg) · thrusters 2 × 20/15 lb (9/7 kg)	**Foundations:** 300 m run · swings 26/18 lb (12/8 kg) · incline push-ups · thrusters 2 × 10 lb (5 kg)
Score	**Cap** 14:00 · **Target** Rx 9:00–11:00. · **Feel** Cardio · **Pace** Reach		
Notes	Icy/snow day: 400 m run = 500 m row = 20/16 cal air bike. Log which one you did.		
Cool-down	3 min easy bike; doorway pec stretch 1 min/side; box breathing 1 min.		

Week 7 · Primer/Deload · Nov 30–Dec 6

Phase	Focus	Skill block	Class running (Rx)
Primer/Deload	Volume about −45%, keep some intensity	T2B: light practice	≈ 1.6 km (Mon–Fri)

Coach intent: Primer/deload: about 45% less volume, a few crisp heavy reps, short sharp efforts. Arrive at next week's retests fresh.
Strength this week: squat 2 × 3 @ 75%, 1 × 2 @ 85% · deadlift 2 × 3 @ 75%, 1 × 1 @ 85% · press 2 × 3 @ 75%, 1 × 2 @ 82.5%

Day	Session	Effort
Mon Nov 30	Back Squat Primer + Row Sprints	MODERATE
Tue Dec 1	Light T2B Practice + Easy Aerobic	EASY
Wed Dec 2	Deadlift Primer + Short Station Threshold	MODERATE
Thu Dec 3	Accessory Strength + Easy Row/Bike Intervals	EASY
Fri Dec 4	Power Clean + Press Primer + Short Sprint	HARD

MONDAY Nov 30 Back Squat Primer + Row Sprints [MODERATE]

Purpose	Two easy triples and one heavy double: feel heavy weight without fatigue.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–35** Back squat · **35–50** Workout · **50–55** Accessory · **55–60** Cool-down		
Warm-up	General (5 min): 400 m easy row or bike, 10 spiderman lunges with reach, 10 PVC pass-throughs. Specific (6 min): 8 tempo goblet squats (3 s down), 3 squat jumps, then ramp sets.		
Strength	Back squat: 2 × 3 @ 75%, 1 × 2 @ 85% (rest 2:00). Ramp: empty bar × 10, 40% × 5, 50% × 3, 60% × 2, then working sets. RPE cap 8: if a set goes past RPE 8, drop 5–10%. Fdn: goblet or box squat at RPE 7.		
Workout	**4 × 0:45 max-effort row / 2:15 easy (12:00).** Score = total metres.		
Levels	**Rx:** Max effort	**Intermediate:** RPE 9	**Foundations:** RPE 8
Score	**Cap** 12:00 (fixed) · **Target** Rx 230–280 m per sprint. · **Feel** Gas · **Pace** Reach		
Notes	Masters: RPE 8.		
Accessory	Superset 2 rounds only, RIR 3: 8/side split squats + 20 s/side side plank.		
Cool-down	3 min easy bike; couch stretch 1 min/side; child's pose 1 min. Log your loads.		

TUESDAY Dec 1 Light T2B Practice + Easy Aerobic [EASY]

Purpose	Keep the skill ticking over; easy aerobic work.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–27** Skill · **27–55** Workout · **55–60** Cool-down		
Warm-up	General (5 min): 400 m easy row or jog, 10 cat-cows, 10 PVC pass-throughs. Specific (6 min): 20 s hollow hold, 10 arch rocks, 2 × 5 kip swings, 2 × 3 easy T2B or knee raises.		
Skill	T2B practice, 8 min, no fatigue: 3 × (3 kip swings + 3 T2B or knee raises), 1:30 rest. Stop every set with reps in the tank.		
Workout	**22:00 easy, RPE 5. 2 rounds:** 800 m run 400 m row 10 wall balls (light)		
Levels	**Rx:** 800 m run · wall balls 14/10 lb (6/4 kg)	**Intermediate:** 600 m run · wall balls 10/6 lb (4/3 kg)	**Foundations:** 400 m run/walk · wall balls 10/6 lb (4/3 kg)
Score	**Cap** 22:00 · **Target** No score: conversational. · **Feel** Cardio (easy) · **Pace** Sustain		
Notes	Icy/snow day: 400 m run = 500 m row = 20/16 cal air bike. Log which one you did.		
Cool-down	Walk 2 min; calf and hamstring stretch 1 min/side; lat stretch on rig 1 min.		

WEDNESDAY Dec 2 Deadlift Primer + Short Station Threshold [MODERATE]

Purpose	Two easy triples and one heavy single; a short threshold piece (about 7/10) on stations.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–30** Deadlift · **30–52** Workout · **52–56** Accessory · **56–60** Cool-down		
Warm-up	General (5 min): 400 m easy row, 10 jumping jacks, 5/side supported hip airplanes. Specific (6 min): 2 × 5 deadlifts building, 5 KB swings, then ramp sets.		
Strength	Deadlift: 2 × 3 @ 75%, 1 × 1 @ 85% (rest 2:00). Ramp: 40% × 5, 50% × 3, 60% × 2, then working sets. Reset every rep: no bouncing. RPE cap 8. Fdn: KB or trap-bar deadlift at RPE 7.		
Workout	**2 × 8:00 AMRAP / 2:00 rest, RPE 6–7:** 12/9 cal row 10 wall balls 20 m farmers carry		
Levels	**Rx:** Wall balls 14/10 lb (6/4 kg) · farmers 2 × 53/35 lb (2 × 24/16 kg)	**Intermediate:** Wall balls 10/6 lb (4/3 kg) · farmers 2 × 35/26 lb (2 × 16/12 kg)	**Foundations:** 8/6 cal row · wall balls 10/6 lb (4/3 kg) · farmers 2 × 26/18 lb (2 × 12/8 kg)
Score	**Cap** 18:00 · **Target** Block 2 = block 1 (±1 round). · **Feel** Cardio · **Pace** Sustain		
Accessory	Superset 2 rounds, RIR 3: 10 DB rows + 30 s dead hang.		
Cool-down	3 min easy row; pigeon 1 min/side; dead hang 3 × 15 s.		

THURSDAY Dec 3 Accessory Strength + Easy Row/Bike Intervals [EASY]

Purpose	The easy day: accessory strength for joints and posture, then easy aerobic intervals with set work and rest. Nobody should breathe hard today.		
Time (60 min)	**0–3** Brief · **3–10** Warm-up · **10–31** Accessory strength · **31–52** Easy intervals · **52–60** Cool-down + mobility		
Warm-up	General (4 min): 2 min easy bike, 10 deep-squat pries, 10/side ankle rocks. Specific (3 min): 5/side split squats (bodyweight), 10 band face pulls, 20 s hollow hold.		
Accessory strength	2 rounds, RIR 3 (1:00 rest after each round): A1) 10/side DB split squats A2) 12 band face pulls A3) 30 s hollow hold + 30 m/side suitcase carry		
Easy intervals	**3 × 4:00 easy / 1:00 rest (14:00). Alternate row and air bike each round if there are enough machines.** Effort: Zone 2, about 4–5/10. You can talk in full sentences the whole time.		
Levels	**Rx:** Row or air bike, RPE 5.	**Intermediate:** Row or air bike, RPE 4–5.	**Foundations:** Air bike or row, RPE 4. Rounds can be 1:00 shorter.
Score	**Cap** 14:00 (fixed) · **Target** Same pace every round. Row: 500 m split about 0:15–0:25 slower than your 1 km test split. Bike: same calories each round (±1). · **Feel** Cardio (easy) · **Pace** Sustain		
Notes	Not enough machines? Run the class in two waves: wave 1 does the intervals while wave 2 does the accessory strength, then swap. Masters/injury: best day for extra mobility or rehab work; coach checks in 1-on-1.		
Cool-down + mobility	3 min easy bike; couch stretch 1 min/side; adductor rocks; box breathing 1 min.		

FRIDAY Dec 4 **Power Clean + Press Primer + Short Sprint** [HARD]			
Purpose	Fast, fresh, short. A quick 'reach' piece to sharpen intensity.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–33** Clean + strict press · **33–52** Workout · **52–60** Cool-down		
Warm-up	General (5 min): 2 min jump rope, 5 inchworm push-ups, 10 lunges. Specific (7 min): hang power clean × 5, push press × 5, push jerk × 5 (empty bar), then ramp sets.		
Clean + Press	A) Clean technique: EMOM 6: 2 power cleans, light and fast (RPE 6). B) Strict press: 2 × 3 @ 75%, 1 × 2 @ 82.5% (rest 1:30–2:00); superset with 10 band face pulls. RPE cap 8. Fdn: DB strict press, same reps.		
Workout	**2 rounds for time:** 15/12 cal bike 12 toes-to-bar 15 wall balls		
Levels	**Rx:** Wall balls 20/14 lb (9/6 kg)	**Intermediate:** Knee raises · wall balls 14/10 lb (6/4 kg)	**Foundations:** 10/8 cal · lying leg raises · wall balls 10/6 lb (4/3 kg)
Score	**Cap** 10:00 · **Target** Rx 5:00–7:00. · **Feel** Gas · **Pace** Reach		
Cool-down	3 min easy bike; doorway pec stretch 1 min/side; box breathing 1 min.		

Week 8 · Retest · Dec 7–13

Phase	Focus	Skill block	Class running (Rx)
Retest	Retest strength and the 1 km run	T2B: maintenance	≈ 2.8 km (Mon–Fri)

Coach intent: Retest the Week 1 strength and run tests under the same conditions. Normal, moderate training around them.
Strength this week: squat RETEST: build to 3RM · deadlift RETEST: build to 3RM · press RETEST: build to 5RM

Day	Session	Effort
Mon Dec 7	RETEST: 3RM Back Squat + Bike Intervals	HARD
Tue Dec 8	RETEST: 1 km Run Time Trial + T2B Maintenance	HARD
Wed Dec 9	RETEST: 3RM Deadlift + Easy Aerobic Rounds	HARD
Thu Dec 10	Accessory Strength + Easy Row/Bike Intervals	EASY
Fri Dec 11	RETEST: 5RM Strict Press + HYROX Station AMRAP	MODERATE

MONDAY Dec 7 RETEST: 3RM Back Squat + Bike Intervals [HARD]

Purpose	Same test as Week 1: compare your 3RM. Short, fast intervals afterwards to open up the lungs.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–35** 3RM test · **35–48** Workout · **48–53** Accessory · **53–60** Cool-down + log		
Warm-up	General (5 min): 400 m easy row or bike, 10 spiderman lunges with reach, 10 PVC pass-throughs. Specific (6 min): 8 tempo goblet squats (3 s down), 3 squat jumps, then ramp sets.		
Strength	RETEST: build to a 3RM back squat in 18 min. Ladder: bar × 8, ~50% × 5, ~65% × 3, ~75% × 3, then 2–4 attempts at 3 reps, adding 5–20 lb (2.5–10 kg). Coach calls the set if depth or position breaks. The last clean set = your 3RM. New to the barbell or returning from injury: 3RM goblet or box squat at RPE 8. Use your Week 1 3RM as the second-to-last attempt.		
Workout	**6 rounds: 0:30 hard / 1:30 easy (12:00).** Same machine all 6 rounds (and the same machine as Week 1).		
Levels	**Rx:** Air bike or BikeErg. Hard = RPE 9.	**Intermediate:** Rower. Hard = RPE 8.	**Foundations:** Any machine. Hard = RPE 7, smooth.
Score	**Cap** 12:00 (fixed) · **Target** Beat your Week 1 average calories. · **Feel** Gas · **Pace** Reach		
Notes	Masters: RPE 8 max on the hard pieces. Knee or back pain: bike only.		
Accessory	Superset 2 rounds, RIR 3: 10/side DB split squats (light) + 30 s/side side plank.		
Cool-down	3 min easy bike; couch stretch 1 min/side; child's pose 1 min. Log your loads.		

TUESDAY Dec 8	RETEST: 1 km Run Time Trial + T2B Maintenance [HARD]		
Purpose	Same test as Week 1: compare your 1 km time. The skill work stays light: no max sets today.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–27** Skill · **27–55** Workout · **55–60** Cool-down		
Warm-up	General (5 min): 400 m easy row or jog, 10 cat-cows, 10 PVC pass-throughs. Specific (6 min): 20 s hollow hold, 10 arch rocks, 2 × 5 kip swings, 2 × 3 easy T2B or knee raises.		
Skill	T2B maintenance, every 2:00 × 4 (not a test; the retest is Week 9): 2 kip swings + 3–5 T2B (or kipping knee raises). Fdn: 5 hanging knee raises.		
Workout	**RETEST: 1 km run time trial (as fast as you can hold for the full 1 km).** Start in waves of 4–6. Rest 8–10 min after (walk, drink water). Then 12:00 easy, RPE 5: 3 rounds of 400 m easy run + 10 ring rows + 10 sit-ups.		
Levels	**Rx:** 1 km run, hard but even: same pace each 200 m.	**Intermediate:** 1 km run, even pace.	**Foundations:** 1 km run/walk, or 1,000 m row (record which).
Score	**Cap** 25:00 · **Target** Beat your Week 1 time on the same route or machine. · **Feel** Cardio · **Pace** Reach		
Notes	Use the same option as Week 1. Icy route or no outdoor option: 1,000 m row (or 2,000 m BikeErg if available) and repeat the same option in Week 8. Easy rounds on an icy day: 500 m row instead of each 400 m run.		
Cool-down	Walk 2 min; calf and hamstring stretch 1 min/side; lat stretch on rig 1 min.		

WEDNESDAY Dec 9	RETEST: 3RM Deadlift + Easy Aerobic Rounds [HARD]		
Purpose	Deadlift retest: compare with Week 1, then easy rounds to move and breathe. No run test today.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–32** 3RM test · **32–46** Easy rounds · **46–52** Core · **52–60** Cool-down + log		
Warm-up	General (5 min): 400 m easy row, 10 jumping jacks, 5/side supported hip airplanes. Specific (6 min): 2 × 5 deadlifts building, 5 KB swings, then ramp sets.		
Strength	RETEST: build to a 3RM deadlift in 16 min. Ladder: 40% × 5, 55% × 3, 65% × 3, 75% × 3, then 2–4 attempts at 3, adding 10–30 lb (5–15 kg). No touch-and-go: reset each rep. Coach stops the set if the back rounds. Fdn: 3RM KB or trap-bar deadlift at RPE 8.		
Workout	**3 rounds, not for time, at RPE 5–6 (about 12 min):** 200 m easy jog 10 ring rows 10 hollow rocks 10 KB deadlifts (light)		
Levels	**Rx:** Ring rows with feet forward · KB 35/26 lb (16/12 kg)	**Intermediate:** Ring rows at 45° · KB 26/18 lb (12/8 kg)	**Foundations:** 150 m jog/walk · ring rows, high angle · tuck hollow rocks · KB 26/18 lb (12/8 kg)
Score	**Cap** 14:00 · **Target** Smooth and easy; breathing should stay calm. · **Feel** Cardio (easy) · **Pace** Sustain		
Notes	Low back after the test: bike instead of jogging; skip the KB deadlifts.		
Accessory	Core, 2 rounds: 10/side dead bugs + 20 s/side side plank.		
Cool-down	3 min easy row; pigeon 1 min/side; dead hang 3 × 15 s.		

THURSDAY Dec 10 Accessory Strength + Easy Row/Bike Intervals [EASY]

Purpose	The easy day: accessory strength for joints and posture, then easy aerobic intervals with set work and rest. Nobody should breathe hard today.		
Time (60 min)	**0–3** Brief · **3–10** Warm-up · **10–31** Accessory strength · **31–52** Easy intervals · **52–60** Cool-down + mobility		
Warm-up	General (4 min): 2 min easy bike, 10 deep-squat pries, 10/side ankle rocks. Specific (3 min): 5/side split squats (bodyweight), 10 band face pulls, 20 s hollow hold.		
Accessory strength	Light prep for Friday's press retest, 2 rounds, RIR 3–4: A1) 10 band pull-aparts A2) 10 light KB deadlifts A3) 10/side dead bugs		
Easy intervals	**3 × 4:00 easy / 1:00 rest (14:00). Alternate row and air bike each round if there are enough machines.** Effort: Zone 2, about 4–5/10. You can talk in full sentences the whole time.		
Levels	**Rx:** Row or air bike, RPE 5.	**Intermediate:** Row or air bike, RPE 4–5.	**Foundations:** Air bike or row, RPE 4. Rounds can be 1:00 shorter.
Score	**Cap** 14:00 (fixed) · **Target** Same pace every round. Row: 500 m split about 0:15–0:25 slower than your 1 km test split. Bike: same calories each round (±1). · **Feel** Cardio (easy) · **Pace** Sustain		
Notes	Not enough machines? Run the class in two waves: wave 1 does the intervals while wave 2 does the accessory strength, then swap. Masters/injury: best day for extra mobility or rehab work; coach checks in 1-on-1.		
Cool-down + mobility	3 min easy bike; couch stretch 1 min/side; adductor rocks; box breathing 1 min.		

FRIDAY Dec 11 RETEST: 5RM Strict Press + HYROX Station AMRAP [MODERATE]

Purpose	Press retest, then a first, steady look at four HYROX stations (not a max effort).		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–32** 5RM press · **32–48** Station school + AMRAP · **48–52** Accessory · **52–60** Cool-down		
Warm-up	General (5 min): 2 min jump rope, 5 inchworm push-ups, 10 lunges. Specific (7 min): hang power clean × 5, push press × 5, push jerk × 5 (empty bar), then ramp sets.		
Clean + Press	RETEST: build to a 5RM strict press in 15 min. Ladder: bar × 10, ~50% × 5, ~65% × 5, then 2–4 attempts at 5, adding 5–10 lb (2.5–5 kg). No leg drive; ribs down. Fdn: 5RM DB strict press (record the per-hand load).		
Workout	**Station school (4 min): coach demos the wall ball, farmers carry, sandbag lunge and burpee broad jump standards.** Then AMRAP 10:00, steady (RPE 6), on your own: 10 wall balls 20 m farmers carry 10 sandbag lunges (total) 4 burpee broad jumps		
Levels	**Rx:** Wall balls 14/10 lb (6/4 kg) · farmers 2 × 53/35 lb (2 × 24/16 kg) · sandbag 44/22 lb (20/10 kg)	**Intermediate:** Wall balls 10/6 lb (4/3 kg) · farmers 2 × 35/26 lb (2 × 16/12 kg) · sandbag 33/22 lb (15/10 kg)	**Foundations:** Wall balls 10/6 lb (4/3 kg) to a lower target · farmers 2 × 26/18 lb (2 × 12/8 kg) · bodyweight lunges · step-back burpee + jump
Score	**Cap** 10:00 · **Target** Rx 5–7 rounds. Week 8 repeats this piece: compare. · **Feel** Cardio · **Pace** Sustain		
Notes	Shoulder after the press test: goblet squats instead of wall balls. Knees: step-ups instead of lunges.		
Accessory	Superset 2 rounds, RIR 3: 10 band face pulls + 10 hollow rocks.		
Cool-down	3 min easy bike; doorway pec stretch 1 min/side; box breathing 1 min.		

Week 9 · Flex · Dec 14–20

Phase	Focus	Skill block	Class running (Rx)
Flex	Benchmarks, skill retest, mini race sim, community	T2B retest	≈ 2.8 km (Mon–Fri)

Coach intent: Flex week: the toes-to-bar retest, Helen (Wed) and the Court6 Mini-Rox (Fri), plus lighter, friend-friendly sessions. Every session is optional; pick 3–4.
Strength this week: squat Optional technique: 3 × 5 @ 65% · deadlift Optional technique: 3 × 5 @ 60% · press Optional technique: 3 × 5 @ 60%

Flex week: On-ramp members and guests can join every class at Foundations level. Members may skip Helen or the Mini-Rox and do the lighter option instead.

Day	Session	Effort
Mon Dec 14	Squat Technique + Community AMRAP (individual)	MODERATE
Tue Dec 15	T2B RETEST + Easy Row/Bike Intervals	MODERATE
Wed Dec 16	Deadlift Technique + HELEN	HARD
Thu Dec 17	Accessory Strength + Easy Row/Bike Intervals	EASY
Fri Dec 18	Press Technique + Court6 Mini-Rox (individual)	HARD

MONDAY Dec 14 Squat Technique + Community AMRAP (individual) [MODERATE]

Purpose	Light technique and a steady piece everyone does on their own, at their own level. Great day to bring a friend.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up · **15–35** Back squat · **35–50** Workout · **50–55** Accessory · **55–60** Cool-down		
Warm-up	General (5 min): 400 m easy row or bike, 10 spiderman lunges with reach, 10 PVC pass-throughs. Specific (6 min): 8 tempo goblet squats (3 s down), 3 squat jumps, then ramp sets.		
Strength	Back squat technique (optional): 3 × 5 @ 65% with a 2 s pause. Guests/on-ramp: goblet squat 3 × 8. Focus: brace, knees out, same depth every rep.		
Workout	**AMRAP 20:00 at RPE 6–7, on your own, steady:** 12/9 cal row 12 wall balls 12 KB swings		
Levels	**Rx:** Wall balls 20/14 lb (9/6 kg) · swings 53/35 lb (24/16 kg)	**Intermediate:** Wall balls 14/10 lb (6/4 kg) · swings 35/26 lb (16/12 kg)	**Foundations:** 8/6 cal row · wall balls 10/6 lb (4/3 kg) · swings 26/18 lb (12/8 kg)
Score	**Cap** 20:00 (fixed) · **Target** Rx 6–8 rounds at the same pace. · **Feel** Cardio · **Pace** Sustain		
Notes	Guests/on-ramp: Foundations, coach demo for every movement.		
Accessory	Superset 2 rounds, RIR 3: 10 goblet squats (pause) + 10 hollow rocks.		
Cool-down	3 min easy bike; couch stretch 1 min/side; child's pose 1 min. Log your loads.		

TUESDAY Dec 15 T2B RETEST + Easy Row/Bike Intervals [MODERATE]

Purpose	Retest the block skill and compare with Week 2. Easy machine intervals to stay fresh for Wednesday's Helen and Friday's Mini-Rox.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–27** Skill · **27–55** Workout · **55–60** Cool-down		
Warm-up	General (5 min): 400 m easy row or jog, 10 cat-cows, 10 PVC pass-throughs. Specific (6 min): 20 s hollow hold, 10 arch rocks, 2 × 5 kip swings, 2 × 3 easy T2B or knee raises.		
Skill	Warm up the skill with 3 × 3 easy T2B (or knee raises). RETEST: max unbroken toes-to-bar, one attempt (Int/Fdn: hanging knee raises). Compare with Week 2. Optional: max strict pull-ups, one set (baseline for the next block).		
Workout	**4 × 4:00 easy / 1:00 rest (19:00), alternating row and air bike.** Effort: Zone 2, about 4–5/10; you can talk in full sentences.		
Levels	**Rx:** RPE 5	**Intermediate:** RPE 4–5	**Foundations:** RPE 4; air bike only if rowing bothers your back
Score	**Cap** 19:00 (fixed) · **Target** Same pace every round. · **Feel** Cardio (easy) · **Pace** Sustain		
Cool-down	Walk 2 min; calf and hamstring stretch 1 min/side; lat stretch on rig 1 min.		

WEDNESDAY Dec 16 Deadlift Technique + HELEN [HARD]

Purpose	Benchmark day: Helen. It sets the baseline for the next block.		
Time (60 min)	**0–3** Brief · **3–14** Warm-up · **14–26** Deadlift technique · **26–50** Helen · **50–60** Cool-down		
Warm-up	General (5 min): 400 m easy row, 10 jumping jacks, 5/side supported hip airplanes. Specific (6 min): 2 × 5 deadlifts building, 5 KB swings, then ramp sets.		
Strength	Deadlift technique (optional, light because of the swings): 3 × 5 @ 55%, reset each rep. Guests/on-ramp: KB deadlift 3 × 8.		
Workout	**HELEN: 3 rounds for time:** 400 m run 21 KB swings 12 pull-ups		
Levels	**Rx:** 400 m run · swings 53/35 lb (24/16 kg) · pull-ups (kipping OK)	**Intermediate:** 400 m run · swings 35/26 lb (16/12 kg) · banded or jumping pull-ups	**Foundations:** 300 m run · swings 26/18 lb (12/8 kg) · ring rows
Score	**Cap** 15:00 · **Target** Rx 9:00–12:00 · Int 11:00–14:00 · Fdn under the cap. · **Feel** Cardio · **Pace** Sustain, then reach in round 3		
Notes	Record level and time on the scorecard. Lighter option: 2 rounds at Foundations, RPE 6. Icy/snow day: 400 m run = 500 m row = 20/16 cal air bike. Log which one you did.		
Cool-down	3 min easy row; pigeon 1 min/side; dead hang 3 × 15 s.		

THURSDAY Dec 17 Accessory Strength + Easy Row/Bike Intervals [EASY]

Purpose	The easy day plus scorecards: members compare Week 1 vs Week 8 numbers and set one goal for the next block.		
Time (60 min)	**0–3** Brief · **3–10** Warm-up · **10–31** Accessory strength · **31–52** Easy intervals · **52–60** Cool-down + mobility		
Warm-up	General (4 min): 2 min easy bike, 10 deep-squat pries, 10/side ankle rocks. Specific (3 min): 5/side split squats (bodyweight), 10 band face pulls, 20 s hollow hold.		
Accessory strength	Scorecard review with a coach (5 min per small group). Then 2 rounds, RIR 3: A1) 12 band pull-aparts A2) 10/side DB split squats A3) 10/side dead bugs + 15 calf raises		
Easy intervals	**4 × 4:00 easy / 1:00 rest (19:00). Alternate row and air bike each round if there are enough machines.** Effort: Zone 2, about 4–5/10. You can talk in full sentences the whole time.		
Levels	**Rx:** Row or air bike, RPE 5.	**Intermediate:** Row or air bike, RPE 4–5.	**Foundations:** Air bike or row, RPE 4. Rounds can be 1:00 shorter.
Score	**Cap** 19:00 (fixed) · **Target** Same pace every round. Row: 500 m split about 0:15–0:25 slower than your 1 km test split. Bike: same calories each round (±1). · **Feel** Cardio (easy) · **Pace** Sustain		
Notes	Not enough machines? Run the class in two waves: wave 1 does the intervals while wave 2 does the accessory strength, then swap. Masters/injury: best day for extra mobility or rehab work; coach checks in 1-on-1.		
Cool-down + mobility	3 min easy bike; couch stretch 1 min/side; adductor rocks; box breathing 1 min.		

FRIDAY Dec 18 Press Technique + Court6 Mini-Rox (individual) [HARD]

Purpose	Our HYROX-style mini race in a 60-minute class: 4 short runs, each followed by a station. Baseline for the HYROX block. Friends and on-ramp members do Foundations.		
Time (60 min)	**0–3** Brief · **3–15** Warm-up + station walk-through · **15–22** Press technique · **22–52** Mini-Rox heats · **52–60** Cool-down		
Warm-up	General (5 min): 600 m easy jog or row, leg swings, arm circles. Specific (7 min): walk the course and the standards, then 1 round at race pace, 10–15 s each: row, burpee broad jump, sandbag lunges, wall balls; 10 empty-bar strict presses.		
Clean + Press	Strict press technique (optional): 3 × 5 @ 60% + 2 × 10 band face pulls. Guests: DB press 2 × 8.		
Workout	**COURT6 MINI-ROX (weekday version), for time, on your own:** 400 m run → 500 m row 400 m run → 20 m burpee broad jumps 400 m run → 30 sandbag lunges (total) 400 m run → 40 wall balls Heats of 4 (one rower each) start every 3:00. Count your own reps; the coach records total time and the run 1 and run 4 splits.		
Levels	**Rx:** Sandbag 44/22 lb (20/10 kg) · wall balls 14/10 lb (6/4 kg) to 10/9 ft (3.0/2.7 m)	**Intermediate:** Sandbag 33/22 lb (15/10 kg) · wall balls 10/6 lb (4/3 kg) to 9 ft	**Foundations:** 300 m run/walk · 300 m row · step-back burpee + jump · lunges with sandbag 22/13 lb (10/6 kg) or none · 30 wall balls 10/6 lb (4/3 kg)
Score	**Cap** 26:00 · **Target** Rx 15:00–20:00 · Int 17:00–23:00 · Fdn under the cap. · **Feel** Cardio · **Pace** Sustain (even run splits)		
Notes	Record total time, level, run 1 and run 4 split. Lighter option: Foundations at RPE 6. Icy/snow day: 400 m run = 500 m row = 20/16 cal air bike. Log which one you did.		
Cool-down	3 min easy bike; doorway pec stretch 1 min/side; box breathing 1 min.		

Appendix A: Member testing scorecard

Name: _____ Level (Rx / Int / Fdn): _____ Coach: _____

Test	When	Week 1	Week 8	Change
3RM back squat	Mon Wk 1 / Wk 8			
→ e1RM (× 1.06)				
3RM deadlift	Wed Wk 1 / Wk 8			
5RM strict press	Fri Wk 1 / Wk 8			
1 km run (or 1,000 m row)	Tue Wk 1 / Wk 8			
→ threshold pace (+0:40–0:50 /km)				

Skill blocks and benchmarks

Skill / benchmark	Test	Score	Retest	Score
Max unbroken toes-to-bar (or knee raises)	Wk 2		Wk 9	
Cindy (rounds + reps, level)	Wk 4		—	
Helen (time, level)	Wed Wk 9		next block	
Max strict pull-ups (optional)	Wk 9		next block	
Court6 Mini-Rox total (level)	Fri Wk 9		next block	
→ run 1 / run 4 split	Wk 9		next block	

My goal for the next block: _____

Appendix B: Movement scaling ladders

Easiest → hardest. Move up one rung only when the current rung is solid for the prescribed reps.

Movement	Ladder
Pull-up	Ring row (high → low angle) → banded / jumping → strict → kipping → butterfly
Toes-to-bar	Lying leg raise → hanging knee raise → kip swing → knees-to-elbows → T2B
Handstand push-up	Pike push-up → box pike → handstand push-up to an abmat → strict → kipping → deficit
Handstand / wall walk	Plank walk-up → partial wall walk → wall-facing hold → full wall walk
Double-under	Line hops → single-unders → 1 single + 1 double → single double-unders → unbroken sets
Push-up	Incline (box) → knee → full → hand-release / deficit
Back squat	Air squat → goblet squat → box squat → back squat
Front squat	Goblet → DB front squat → barbell front squat
Deadlift	KB deadlift → trap-bar → barbell
KB swing	KB deadlift → Russian swing → American swing
Clean	Muscle clean → hang power clean → power clean → squat clean
Thruster	PVC → empty bar → light bar → DB thruster (alternative)
Strict press / jerk	DB press → barbell press → push press → push jerk → split jerk
Wall ball	Lighter ball / lower target → Rx ball and target
Burpee / burpee broad jump	Step-back burpee → burpee → burpee broad jump
Box jump / step-over	Step-up → lower box → jump
Run	Walk/run → run; row or air bike substitute (winter rule)

Appendix C: Equipment substitutions

If you don't have...	Use instead (keep the stimulus)
Sled (push)	Heavy prowler; plate or loaded box pushed on turf; towel-and-plate push on a smooth floor; 2 × distance heavy DB walking lunges
Sled (pull)	Rope pull of a sandbag or plate on a towel; heavy DB drag walking backwards; 2 × reps heavy band or ring rows
Rower	Air bike (calories × 0.8, or same time) or run (400 m run per 500 m row)
Air bike	Rower (same time) or run
Running route (ice, dark)	400 m run = 500 m row = 20/16 cal air bike; 1 km test = 1,000 m row
Sandbag	Front-rack KB or DB, goblet hold, light barbell back-rack (same load)
Farmers handles	Heavy KBs, DBs, trap bar, or loaded buckets
Wall-ball target	Mark tape at 10 ft / 9 ft (3.0 / 2.7 m); DB or med-ball thrusters
Enough rowers/bikes for the class	Stagger heats every 3–4 min, start members on different stations, or run the class in two waves (machines / strength, then swap)
Pull-up bar space	Rotate, or use ring rows / banded lat pull-downs
Barbells for all	DB versions of the same lift and reps

Appendix D: HYROX race format (for briefing members)

8 × 1 km runs, each followed by one station, in this order. Open-division loads **verified Oct 16, 2026 against the official HYROX Season 26/27 Singles Rulebook** (linked from hyrox.com/rulebook: maintain.hyrox.com/rulebooks/HYROX_RulebookSingles_EN.pdf; workout/division table and station sections). Sled loads include the sled; sled push and pull are 4 × 12.5 m. Court6 has no SkiErg, so in class we train station 1 with the rower and air bike; members racing HYROX should book a few SkiErg sessions elsewhere before race day.

#	Station	Distance / reps	Open men	Open women
1	SkiErg	1,000 m	—	—
2	Sled push	50 m	152 kg incl. sled	102 kg incl. sled
3	Sled pull	50 m	103 kg incl. sled	78 kg incl. sled
4	Burpee broad jumps	80 m	—	—
5	Row	1,000 m	—	—
6	Farmers carry	200 m	2 × 24 kg	2 × 16 kg
7	Sandbag lunges	100 m	20 kg	10 kg
8	Wall balls	100 reps	6 kg to 3.0 m	4 kg to 2.7 m

Women Pro uses the men's Open loads; Men Pro is heavier (202 / 153 kg sleds, 2 × 32 kg, 30 kg sandbag, 9 kg ball). Nearest official race: **HYROX Ottawa, Apr 21–25, 2027** (tickets not on sale as of Oct 16, 2026). Local summer option: the affiliate-run HYROX Atlantic Series (2027 dates not posted yet).

What's next

- **Sequencing:** the next block can start Dec 21 or after the holidays (Mon Jan 4, 2027); a 9-week HYROX block back-planned from HYROX Ottawa (Apr 21–25, 2027) starts around Feb 15.
- Week 8 numbers carry into the next block's percentages; Week 9 Helen and Mini-Rox are the baselines to beat.

Appendix E: Research principles behind this design

Short version of the evidence in Court6's research library (/workspace/fitness-research; files are in methodology/ unless another folder is shown). Full citations are in the files named.

Design choice	Principle	Library file
Lift first, then conditioning	Same-session cardio blunts power more than max strength	synthesis.md #1 · methodology/science-concurrent-training.md
Bike/row on squat days	Running interferes more than cycling; running has a higher injury rate	synthesis.md #2 · science-injury.md
3–5 hard sets per lift, 2–3 lifts/week	Strength gains plateau quickly with more volume	synthesis.md #3, #19 · science-volume-accessories.md
% + RPE 8 cap	Same results, safer for mixed classes	synthesis.md #5 · science-deload-autoregulation.md
Test → Base → Build → Primer/deload → Retest → Flex (9 weeks)	Mayhem 9-week strength cycles; Misfit test → train → primer → retest phases	comparison-matrix.md · programs/mayhem.md · programs/misfit-athletics.md
Primer/deload Wk 7 (about −45%)	Cut accessories first, then volume 30–50%; keep some intensity	synthesis.md #17 · science-deload-autoregulation.md
Mostly aerobic HYROX work	Runs are >60% of race time; endurance predicts race time	synthesis.md #6, #18 · methodology/science-hyrox.md · component-hyrox-running.md
Mix easy, threshold and short hard intervals	Threshold 20–40 min + short hard intervals (7–12 min total) + easy volume	synthesis.md #7, #29 · coaches-aerobic-hinshaw-opex.md
Week 1: strength + one 1 km run test	Test what sets loads and paces; 1 km is the HYROX run distance	synthesis.md #30 · component-testing.md
Compromised running from Wk 5 only (Wednesdays)	Separate first, combine later	component-hyrox-running.md (Dearden)
One skill (T2B) for the whole block, test/retest	Strength → strict → kip; hollow/arch base	synthesis.md #9 · component-gymnastics.md
3 levels, same stimulus; Feel/Pace/Target tags	Misfit affiliate class model; program for the majority	programs/misfit-athletics.md · synthesis.md #21, #32
Two hard days; Thursday easy but structured	Group hard days, keep easy days easy	synthesis.md #15, #23
Masters notes	Fewer hard sessions, 70–85% strength, more recovery	synthesis.md #11 · science-masters.md
Published plan + purpose of each day	Retention: explain the why; visible retest wins	synthesis.md #12, #14, #22 · class-retention-onramp.md
Cycle timing (Oct 19 → Dec 20, then Ottawa)	Back-plan from the nearest official race	synthesis.md #33, #35 · hyrox-race-calendar.md

Workouts in this program are original and built from patterns across programs (dataset/patterns.md, comparison-matrix.md). Classic public benchmarks (Helen, Cindy) and the HYROX race format are used by name for testing only.
